Dear Friends,

Welcome to Eshraghi Nursery's 2018-20 catalog. We are celebrating our 30th year in business and wish to thank our customers and friends who have helped us achieve this milestone. To our existing and future customers, we look forward to another 30 years in partnership with you.

We hope you enjoy the beautiful pictures and helpful cultural information about our ever expanding product line contained in this year's catalog. You have an open invitation to tour our nursery and see our large assortment of Japanese maples and grafted conifers as well as our top-of-the-line cultural practices.

Looking forward, we anticipate demand to continue as the economy and housing market remain positive. To meet this increase we have added gravel sections as well as 69,000 square feet of poly houses for containerized production. With labor shortages here to stay, we have invested in two new, state of the art trimming machines and a new, constantly churning, 'Big Blue Boy' canning machine. We are working hard to provide consistent quality that you deserve while increasing our efficiency in labor intensive areas.

As part of our efficiency process, Eshraghi Nursery is actively engaged in the Lean consortium, based on the Toyota Production System. This process has proven effective in reducing our overall costs, allowing us to keep our pricing down and quality up.

A printed insert of our current pricing is available, and if not included with this catalog, can be obtained by contacting us at 503-628-8685.

Please enjoy our new 2018-20 catalog and we look forward to our bright future together.

Best Regards,

Linda Hockersmith Eshraghi, CEO

Eshraghi Nurseries, LLC

How our tags benefit retail garden centers

- Our tags will help you reduce labor costs, sell more plants, and increase customer traffic flow.
- The attractive and informative tags will answer many of your customers' questions, freeing up your sales people to see more customers and sell more plants.
- Made from recycled milk jugs, our MilkMade tags are fade resistant and waterproof.
- The tag design incorporates a large 4-color image, cultural information, botanical and common names, planting instructions, QR Code and a perforated bottom strip.
- For a nominal fee you can include your retail price and SKU on our tags so that your plants arrive ready for display, saving you time and money!

High-quality image of plant

No matter whether it is the foliage, unusual habit or beautiful blooms, our large 4-color image helps sell the beauty of the plant.

Easy-to-understand descriptions

When your customers are better-informed they are more apt to buy!

Care instructions with simple icons

Our tags will build your customers' confidence with simple care instructions helping your sales staff close sales.

Planting instructions with diagram

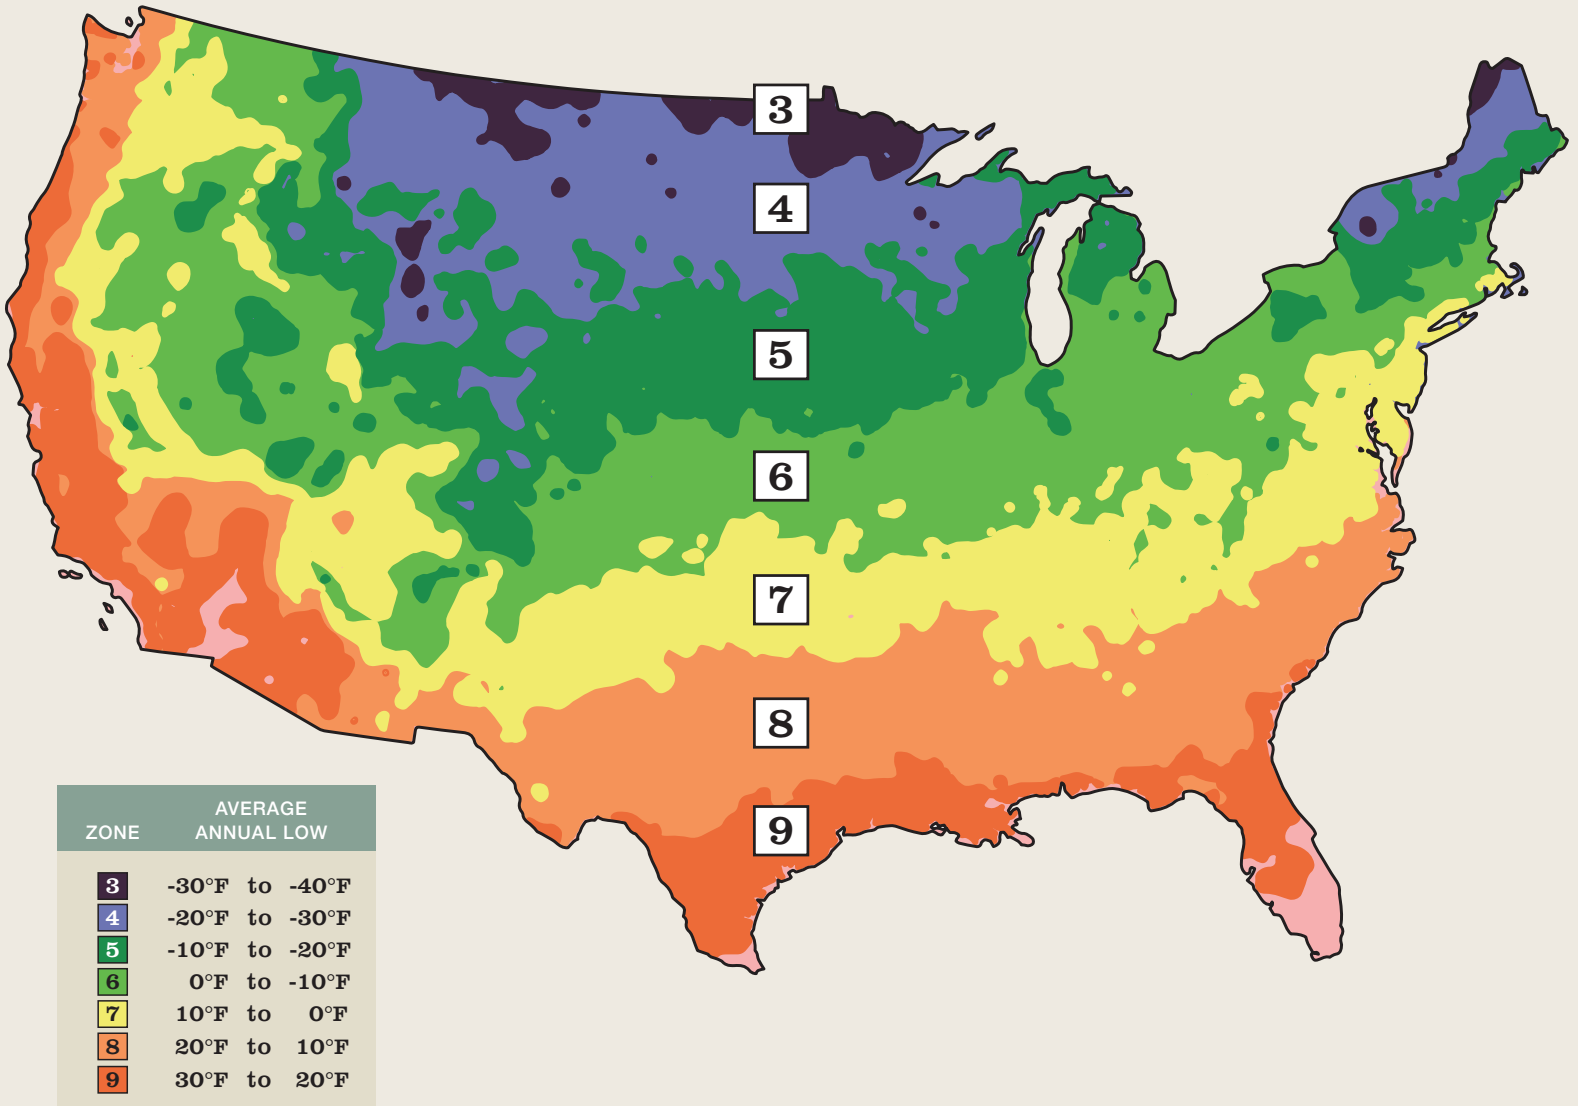

Our planting instructions help ensure your customers will have success with their new plant.

Large common and botanical names

What's in a name? We think everything is in a name, especially if it is the name of the plant your customer wants to buy!

Eshraghi TREES
NURSERIES, LLC

Acer palmatum 'Autumn Moon'

TREES

Acer circinatum – Acer palmatum

Acer circinatum 'Little Gem'

This dwarf vine maple forms a dense mound. Small green leaves emerge with a slight red tinge in the spring, and turn shades of orange and red in fall.

Vine Maple • Sun-Shade • 5x5' • Zone 5

Acer circinatum 'Pacific Fire'

This selection forms an open mound featuring light green foliage that takes on orange highlights in full sun. Brilliant red twigs are the highlight of this vine maple. Fall colors are especially striking with contrasting golden yellow and orange foliage.

Vine Maple • Part sun-Shade • 12x8' in 10 years • Zone 5

Acer circinatum 'Sunglow'

Leaves emerge with tones of peach and apricot while maintaining green veins. Foliage matures to a light green and fall colors take on shades of purple to red.

Vine Maple • Part shade • 6x3' in 10 years • Zone 5

Acer circinatum 'Sunny Sister'

This small, upright, deciduous tree is a great addition to any landscape. Leaves emerge orange-yellow, with pink highlights in full sun, maturing to light green. In fall, leaves change to bright yellow and orange.

Vine Maple • Sun-Part shade • 6x3' in 10 years • Zone 5

Acer japonicum 'Aconitifolium'

An upright tree with a bushy habit and large, rounded fern-like leaves. Rich green color turns scarlet in fall.

Fernleaf Maple • Sun-Part sun • 15x20' • Zone 5

Acer japonicum 'Green Cascade'

A weeping form of japonicum, with more substantial leaves and more intense color than 'Viridis'. Medium green color turns a concentrated yellow-gold to crimson in fall.

Fernleaf Maple • Filtered sun • 4-5x8-10' • Zone 5

Acer palmatum

The principal species to which most Japanese maple cultivars belong. An excellent upright form. Light green leaves turn shades of yellow, orange, and bronze-red in fall.

Japanese Maple • Sun-Filtered sun • 20x20' • Zone 5

Acer palmatum 'Adrian's Compact'

A nice upright, compact tree, with small burgundy-red leaves. Fall color includes bright orange and red.

Japanese Maple • Sun-Part shade • 10x6' • Zone 5

Acer palmatum 'Arakawa', Rough Bark Maple

Arakawa is known as the rough bark maple because of its unique corky bark. The rough texture develops after several years and becomes quite prominent over time. Leaves are green with deeply palmate lobes. Fall color is fantastic, with leaves turning bright orange, gold and red. Protect young foliage from late spring frosts.

Rough Bark Maple • Filtered sun • 18x15' • Zone 5

Acer palmatum 'Bloodgood'

A vigorous, upright habit with blackish red new stems. Large deeply cut red leaves turn brighter red in fall. The iconic red upright Japanese maple to which all others are compared.

Japanese Maple • Filtered sun • 20x20' • Zone 5

Acer palmatum 'Beni hime'

A dwarf, shrubby tree with small, rounded star shaped leaves. New growth is pinkish red with red margins on green base. Remains both red and green through summer becoming more intensely red and purple in fall.

Japanese Maple • Filtered sun • 3-5x4' • Zone 5

Acer palmatum 'Bihou'

A small, upright deciduous tree with tiny yellow-green leaves. Fall color is yellow to orange. Bark on twigs and branches turns a vivid coral yellow with an orange overcast in winter. The Japanese name means "beautiful mountain range".

Japanese Maple • Sun-Part shade • 7x3' in 10 years • Zone 5

Acer palmatum 'Bonfire'

A small upright tree with glossy leaves that emerge bright red and fade to green. Nice multicolor effect all summer, brilliant red in fall. Dense growth habit.

Japanese Maple • Full sun • 15x15' • Zone 5

Acer palmatum 'Butterfly'

Small tree with an upright form. Small green leaves are edged in white and soft pink margins that turn brighter pink in fall.

Japanese Maple • Filtered sun • 12-15x6' • Zone 5

Acer palmatum 'Emperor I'

An upright maple, similar to 'Bloodgood', but with a faster growing rate. This cultivar has a narrower habit with dark red-purple leaves which turn scarlet in the fall. Ideal for colder climates.

Japanese Maple • Filtered sun • 20x20' • Zone 5

TREES

Acer palmatum

Acer palmatum 'Fireglow'

Upright maple similar to 'Bloodgood', but on the smaller side with brighter red fall coloration. New leaves are slightly more pink than 'Bloodgood'.

Japanese Maple • Filtered sun • 16x16' • Zone 5

Acer palmatum 'Gable Glory'

Bright orange-red new leaf color is long lasting, especially in some shade, maturing to burgundy red. Unusual bark is yellowish orange and provides winter interest.

Japanese Maple • Part shade • 15x15' • Zone 5

Acer palmatum 'Geisha Gone Wild'

A small variegated form with narrow, purple-green foliage, is irregularly edged with pink and white. New growth is bright hot-pink while fall foliage changes to purple-orange, then red.

Japanese Maple • Part Shade • 6x3' • Zone 6

Acer palmatum 'Hime shoji'

An excellent dwarf red palmatum, growing dense but more upright than spreading. Flushes of red, deeply divided new leaves appear all season, maturing to a dark maroon; giving this treasure a contrasting color effect. Best color in full sun, although afternoon shade in hot climates is appreciated.

Japanese Maple • Sun-Light shade • 5x4' • Zone 5

Acer palmatum 'Ilarian'

Small deciduous, upright tree with unusual tiny pink, green and white variegated leaves. Stunning foliage changes to a bright orange or red in fall.

Japanese Maple • Sun-Part shade • 8x4' • Zone 6

Acer palmatum 'JN4', Dragon Tears™ PP22249

This palmate-leaved Japanese Maple cascades like a dissectum, but is not as wide. Its spring color is crimson red, turning burgundy red as the leaf matures for summer. By end of summer the color changes to rusty red. Autumn leaf color is bright red. This is a must for the collector. *Unlicensed propagation prohibited.*

Japanese Maple • Sun-Part shade • 10x8' • Zone 5

Acer palmatum 'Katsura'

Beautiful bright yellow leaves with coral tones lasting into summer. Leaves fade to soft green before turning brilliant gold and orange in autumn. New branches turn vibrant coral-orange in winter.

Japanese Maple • Sun-Part shade • 20x15' • Zone 5

Acer palmatum 'Kamagata', Eagle Claw

Small leaves with long angular lobes emerge with a red margin on a light green leaf. Mid-summer color is bright green before turning intense orange-yellow and red in fall. Has a soft appearance and a dense habit.

Japanese Maple • Full sun • 8-10x8-10' • Zone 5

Acer palmatum 'Kihachijo'

This rounded tree has bright green, flat leaves with double serrations on the margins, giving it a distinctly tiered and lacey appearance. Fall color is yellow-gold with rose highlights.

Japanese Maple • Sun-Filtered sun • 15-20x12-15' • Zone 5

Acer palmatum 'Kiyohime'

Small, star-shaped leaves on a vigorous but dense, compact grower. Rich green leaves emerge with bright red-orange margins around yellow centers. Fall color is yellow-orange to bronze.

Japanese Maple • Full sun • 6x6' • Zone 5

Acer palmatum 'Koto-no-ito', Harp String Maple

Meaning "Harp Strings", the name of this cultivar aptly describes this tree's very fine thread-like leaves. Foliage opens with a hint of crimson, quickly turning green. Fall color is bright yellow. Very graceful appearance.

Japanese Maple • Sun-Filtered sun • 6-10x6-8' • Zone 5

Acer palmatum 'Lima Gold'

Tiny yellow-green, seven-lobed leaves adorn this dense dwarf maple. Fall color is a light golden yellow. Its compact stature makes it highly suitable for a container or small garden.

Japanese Maple • Sun-Part sun • 3x3' • Zone 5

Acer palmatum 'Manyo no sato'

Narrow, deeply divided leaves emerge purple and harden off to green and purple. In late summer purple leaves turn deep green, creating a two-tone green effect. Fall color is purple and orange.

Japanese Maple • Sun-Part sun • 6x4' • Zone 5

TREES

Acer palmatum

Acer palmatum 'Mikawa yatsubusa'

Large, overlapping leaves make this maple quite unusual. Bright yellow-green new growth matures to rich green. Very striking dwarf tree.

Japanese Maple • Sun-Shade • 12x12' • Zone 5

Acer palmatum 'Omato'

This upright, green maple has large, broadly ovate leaves with 5-7 lobes. Leaves emerge with a hint of orange-red, mature to rich green, then turn brilliant tones of red in fall.

Japanese Maple • Sun-Part shade • 25x25' • Zone 5

Acer palmatum 'Orange Dream'

Similar to 'Katsura' but even more colorful. A nicely branched upright tree, the large leaves begin coral-orange and progress to vibrant yellow with red undertones, eventually maturing to a soft green. Bright gold and coral in fall.

Japanese Maple • Filtered sun • 25x15' • Zone 5

Acer palmatum 'Oregon Sunset'

Large leaves round out the overall globed-shape of this compact grower. Purple-red leaves begin as a soft red in spring. In fall, the leaves turn an outstanding orange-red.

Japanese Maple • Filtered sun • 8-10x8-10' • Zone 5

Acer palmatum 'Peaches and Cream'

Spring foliage emerges cream with green highlights and rose-red tips. Deep green veins create a variegated appearance. Fall color is yellow with dark tips.

Japanese Maple • Part shade • 10x10' • Zone 5

Acer palmatum 'Peridot Flame'

A dwarf Japanese maple that briefly emerges red and turns bronze-green. Deeply lobed and serrated leaf edges mimic a flame. Fall tones are yellow and orange.

Japanese Maple • Part shade-Shade • 8x4' • Zone 6

Acer palmatum 'Purple Ghost'

Purple-red foliage with dark black veins turning bright red to orange in fall. The more sun, the darker the leaves.

Japanese Maple • Sun-Filtered sun • 15-18x15-18' • Zone 5

Acer palmatum 'Rhode Island Red'

This compact, red-leaved maple forms a broad dome-shaped crown. Bright red leaves mature to burgundy-red, finally turning orange to red in fall. Dark red stems provide winter interest.

Japanese Maple • Sun-Part shade • 6x6' in 10 years • Zone 5

Acer palmatum 'Sango kaku', Coral Bark

'Sango kaku' is known for its magnificent coral-pink bark in the winter. An upright grower with medium-sized, light green leaves until fall, when they become an apricot-orange followed by a brilliant gold. Very showy tree with a nice upright form.

Japanese Maple • Sun-Filtered sun • 20-25x18-20' • Zone 5

Acer palmatum 'Sharp's Pygmy'

A dwarf tree with very compact growth. Small, serrated, green leaves turn brilliant yellow and scarlet-orange in autumn.

Japanese Maple • Filtered sun • 3-4x3-4' • Zone 5

Acer palmatum 'Shaina'

A popular compact, upright, and densely branching tree. Small, deeply cut leaves remain close to the branches. Leaves begin a bright red and mature to a deep reddish purple and magenta in fall.

Japanese Maple • Sun-Filtered sun • 5-8x4-8' • Zone 5

Acer palmatum 'Shishigashira', Lion's Head

Small, bright green leaves curl tightly against branches. Densely packed leaves create a striking appearance on this slow growing, compact, upright tree which turns brilliant gold with some red and pink shades in autumn.

Japanese Maple • Sun-Filtered sun • 15-20x15' • Zone 5

Acer palmatum 'Skeeter's Broom'

New growth on this compact Japanese Maple emerges a lovely bright red. As the foliage matures it takes on more of a burgundy color.

Japanese Maple • Filtered sun • 6x6 in 10 years • Zone 5

TREES

Acer palmatum – Acer palmatum dissectum

Acer palmatum 'Taylor' PP15943

This dwarf shrub maple is known for its stunning pink new growth. In late spring leaf centers turn lime green while margins remain pink. The leaves turn lime green in the fall before they drop. *Unlicensed propagation prohibited.*

Japanese Maple • Sun-Part shade • 4x3' in 10 years • Zone 6

Acer palmatum 'Tobiosho'

Known for its brilliant red fall color, 'Tobiosho' has an upright, rounded habit and bears medium green leaves through spring and summer. Fall color is scarlet red.

Japanese Maple • Filtered sun • 15-20x10-15' • Zone 5

Acer palmatum 'Tsuma gaki'

Light green leaves, with reddish lobe-tips, turn crimson red in the fall. Small, rounded, upright tree.

Japanese Maple • Shade • 6-10x6-10' • Zone 5

Acer palmatum 'Ukigumo', Floating Cloud

A very small ornamental tree. Leaves are mixed green, white, and pink with variegation changing throughout the season.

Japanese Maple • Sun-Filtered sun • 12x8' • Zone 5

Acer palmatum 'Twombly's Red Sentinel'

This compact and narrow growing tree has lovely deep maroon foliage. The color holds well throughout the hot summer months, and becomes a beautiful crimson in autumn.

Japanese Maple • Filtered sun • 6x3' • Zone 5

Acer palmatum 'Wakehurst Pink'

This upright, open-branched tree has deeply lobed leaves that emerge pink, and mature to green with erratic pink and white variegation. Fall brings a stunning display of vibrant red leaves with yellow tips.

Japanese Maple • Sun-Part shade • 13x13' in 15 years • Zone 5

Acer palmatum dissectum 'Baby Lace'

Small very finely dissected leaves emerge a pinkish red fading to a bronze-green. Fall color is more reddish with hints of pink and orange. A delicate looking maple as leaves have an airy, spider-like appearance. Remains quite dwarf.

Laceleaf Maple • Sun-Filtered sun • 3-4x3' • Zone 5

Acer palmatum dissectum 'Baldsmith'

A mounding laceleaf with finely cut leaves. Spring color is bright orange-red, fading to soft green in summer, finally turning brilliant orange in fall.

Laceleaf Maple • Filtered sun • 5x6' in 10years • Zone 5

Acer palmatum dissectum 'Crimson Queen'

A lovely laceleaf maple with deep purple-red color and a nice cascading habit. Holds color well in heat and turns deep scarlet in fall.

Laceleaf Maple • Filtered sun • 6-8x10-12' • Zone 5

Acer palmatum dissectum 'Filigree'

Lacy green, very serrated leaves begin pale and darken as the season progresses. Fall color is yellow to orange. Horizontal branching habit is very pendulous.

Laceleaf Maple • Filtered sun • 3-6x4-8' • Zone 5

Acer palmatum dissectum 'Inaba shidare'

Rich maroon laceleaf with a cascading habit that is a bit more upright than most. Crimson in fall. Faster growing than other red laceleaves.

Laceleaf Maple • Sun-Filtered sun • 7x10' • Zone 5

Acer palmatum dissectum 'Jeddelloh Orange'

Finely dissected leaves have strong red-orange margins and pale green centers. Fall color is intense red. A lovely small specimen tree.

Laceleaf Maple • Sun-Part sun • 5x6' • Zone 5

TREES

Acer palmatum dissectum – Cercis canadensis

Acer palmatum dissectum 'Lemon Lime Lace'

Lace-like leaves emerge yellow, maturing to lime green, giving this weeping Japanese maple a lovely two-toned appearance. Fall color ranges from yellow to orange.

Laceleaf Maple • Sun-Part shade • 4x9' • Zone 5

Acer palmatum dissectum 'Red Dragon'

A beautiful weeping laceleaf with new red leaves which mature to purple-red. This cultivar holds deep red color in sun or shade, better than any other red dissectum. Rich red in fall.

Laceleaf Maple • Filtered sun-Shade • 7x10' • Zone 5

Acer palmatum dissectum 'Orangeola'

Leaves emerge an orange-red then fade to dark red. Heavy shade encourages a deep green cast. It is a beautiful effect enhanced by leaves that are a bit more glossy than most of the reddish purple varieties of laceleaf. Bright red-orange in autumn in a long lasting vibrant display. Dense branches cascade nicely.

Laceleaf Maple • Filtered sun • 7-8x6-7' • Zone 5

Acer palmatum dissectum 'Red Filigree Lace'

Extremely lacy, deep purple uniform color, with deep purple to red fall color. One of the most unusual laceleafs available.

Laceleaf Maple • Filtered sun • 5x5' • Zone 5

Acer palmatum dissectum 'Seiryu'

A very attractive upright growth form with small, lacy green leaves until autumn, when leaves turn red and gold with tones of purple. A very attractive and unusual upright.

Laceleaf Maple • Filtered sun • 25x15' • Zone 5

Acer palmatum dissectum 'Tamuke yama'

A rich red-purple laceleaf which holds its color well through summer. Leaves emerge slightly more red; fall color is brilliant red. Grows quickly to maturity.

Laceleaf Maple • Filtered sun • 6-8x8-12' • Zone 5

Acer palmatum dissectum 'Viridis'

The most common green laceleaf maple. Bright green leaves turn yellow-gold with hints of orange and red in fall. Cascading habit.

Laceleaf Maple • Filtered sun-Part shade • 6-10x8-10' • Zone 5

Acer palmatum dissectum 'Waterfall'

Small, deciduous tree that has strongly cascading branches. Green foliage turns gold with traces of orange and scarlet in the fall.

Laceleaf Maple • Full sun • 4-6x8-12' • Zone 5

Acer pseudoplatanus 'Eskimo Sunset'

A stunning maple! Its spring leaves emerge orange-pink and settle into a leaf that is green, splashed with cream and pink coloring. The underside of the leaf is purple!

Sycamore Maple • Sun-Light shade • 30x20' • Zone 4

Acer shirasawanum 'Aureum'

Beautiful tree with bright yellow leaves that turn orange-red in fall. Leaves have many more lobes than a palmatum, giving the leaves a rounded appearance. In shade, the leaves will be more chartreuse. Upright and bushy growth habit.

Fullmoon Maple • Part sun-Part shade • 15-20x15-20' • Zone 5

Acer shirasawanum 'Autumn Moon'

Small, deciduous tree. Leaves have many more lobes than a palmatum, giving the leaves a rounded appearance. Foliage is burnt orange in sun; yellow in shade; and rose-orange in the fall.

Fullmoon Maple • Part sun-Part shade • 20x15' • Zone 5

Arbutus unedo 'Compacta'

White urn-shaped flowers bloom in late summer followed by strawberry-like red fruit persisting into winter. Attractive flaky, red-brown bark. Compact growth habit.

Compact Strawberry Tree • Sun-Part shade • 10x10' • Zone 7

Cercidiphyllum japonicum 'Red Fox'

Smokey purple leaves slowly fade to green-bronze. In fall, crushed leaves smell like burnt sugar. Compact vase-shaped tree.

Katsura Tree • Sun-Part shade • 40x25' • Zone 4

Cercis canadensis 'Covey', Lavender Twist®

This redbud is a tough tree whose branches arch and weep elegantly. In spring the branches are covered with lavender-pink flowers and later, with heart-shaped leaves that are slightly larger than found in other redbuds. Autumn foliage is bright yellow.

Eastern Redbud • Sun-Part shade • 6x8' • Zone 5

TREES

Cercis canadensis – Ginkgo biloba

***Cercis canadensis* 'Greswan', Burgundy Hearts® PP19654**

This redbud has fuchsia pea-like flowers along the branches from early to mid-spring before the leaves appear. It has attractive burgundy foliage which emerges brick-red in spring. The heart-shaped leaves turn yellow in fall. *Unlicensed propagation prohibited.*

Eastern Redbud • Sun-Part sun • 20x25' • Zone 5

***Cercis canadensis* 'Ruby Falls' PP22097**

A weeping redbud with large purple leaves. Red-purple flowers bloom on bare stems in early spring. *Unlicensed propagation prohibited.*

Eastern Redbud • Full sun • 6-8x10-12' • Zone 4

***Cornus kousa* 'Schmred', Heart Throb®**

Large rosy pink flower bracts adorn this deciduous tree for up to 2 months. Dark attractive green leaves will turn deep red in fall. Red fruit attract birds.

Dogwood • Sun-Part shade • 20 x 20' • Zone 5

***Cornus kousa* 'Summer Fun'**

An impressive new white variegated kousa dogwood. In spring, each leaf emerges with a stunning pink-white margin, and displays showy fall color.

Dogwood • Sun-Part shade • 18x15' • Zone 5

***Cornus kousa* 'Summer Gold' PP22765**

White flower bracts. Green leaves have yellow margins that turn soft pink in summer. Flaming red fall color. *Unlicensed propagation prohibited.*

Dogwood • Part shade • 15x15' • Zone 5

***Cornus* x 'KF111-1', Hyperion® PP22219**

A very fast growing specimen with large, showy white flowers, and red berries. Yellow, purple and orange fall color. Resistant to disease and drought. *Unlicensed propagation prohibited.*

Dogwood • Sun-Part shade • 25x25' • Zone 6

Cornus x 'KN30-8', Venus® PP16309

Deciduous tree with showy white, 6" flowers, followed by bright, shiny red fruit. Dark green foliage turns orange in the fall. Highly disease resistant!
Unlicensed propagation prohibited.

Dogwood • Sun-Part shade • 25x25' • Zone 5

Fagus sylvatica 'Purple Fountain'

A fascinating tree which has an overall upright shape, with lateral branches that cascade down to the ground, giving it an elegant and interesting look. The glossy, green-purple leaves take on a lovely bronze color during the fall season.

Beech • Full sun • 25x15' • Zone 5

Fagus sylvatica 'Purpurea Pendula'

Makes a beautiful specimen tree with its graceful weeping form. The branches will form a large, weeping dome that trails to the ground. Foliage also has a nice purple color, adding to the beauty of this tree.

Beech • Full sun • 10x12' • Zone 5

Fagus sylvatica 'Tricolor'

A beautiful tree with very interesting foliage. The slightly serrated leaves have a base color of deep purple which is surrounded by a broad irregular margin that has pinkish white and rose colors.

Beech • Part shade • 30x20' • Zone 4

Ginkgo biloba 'Autumn Gold'

This male cultivar of Ginkgo is practically pest-free and resistant to storm damage. The shape is often irregular with a large branch or two seemingly forming its own tree on the trunk. Unique fan-shaped green foliage turns golden yellow in fall; however, leaves fall quickly and the fall show is short.

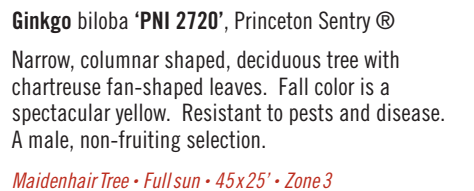

Maidenhair Tree • Sun-Part shade • 50x30' • Zone 3

Ginkgo biloba 'Mariken'

A dwarf, low-spreading, somewhat weeping male cultivar. Small, fan-shaped leaves are a medium green that turn a golden yellow in the fall. Deer resistant.

Maidenhair Tree • Sun-Part shade • 6x6' • Zone 3

Ginkgo biloba 'PNI 2720', Princeton Sentry®

Narrow, columnar shaped, deciduous tree with chartreuse fan-shaped leaves. Fall color is a spectacular yellow. Resistant to pests and disease. A male, non-fruiting selection.

Maidenhair Tree • Full sun • 45x25' • Zone 3

TREES

Ginkgo biloba – *Styrax japonicus***Ginkgo biloba 'Saratoga'**

'Saratoga' is an elegant variety which has unique, elongated, fan-shaped leaves with veins. Emerald-green foliage turns gold in the fall.

Maidenhair Tree • Full sun • 50x25' • Zone 4

**Ginkgo biloba 'Shangri-La'**

A fast growing Ginkgo biloba with a denser, more compact regular crown. This ginkgo makes a nice shade tree. Blue-green, fan-shaped foliage turns bright yellow in fall. A male, non-fruiting cultivar.

Maidenhair Tree • Sun-Part shade • 55x40' • Zone 4

**Ginkgo biloba 'JN9', Sky Tower™**

Great as a vertical accent, this deciduous tree is densely branched, with fan-shaped, green leaves that turn golden yellow in fall.

Maidenhair Tree • Full sun • 20x10' • Zone 5

**Ilex x aquipernyi 'Meschick', Dragon Lady**

Upright, narrow, pyramidal, evergreen with dark green foliage. This female cultivar requires a male pollinator for berry production.

Holly • Sun-Part shade • 20x6' • Zone 6

**Magnolia stellata 'Waterlily'**

Large, fragrant, white star flowers emerge from pink buds on bare branches.

Magnolia • Sun-Part shade • 15x15' • Zone 5

**Magnolia x 'Butterflies'**

Deep yellow flowers with red stamens on a deciduous tree. Blooms early spring.

Magnolia • Sun-Part shade • 16x11' in 10 years • Zone 5

**Styrax japonicus 'JLWeeping', Marley's Pink™ PP23755**

Green leaves are erect on trailing branches, while deep pink flowers topped with red hang like little bells. Blooms have a cotton candy fragrance, and fall foliage is lemon yellow. *Unlicensed propagation prohibited.*

Japanese Snowbell • Sun-Part shade • 10x5' • Zone 5

Eshraghi SHRUBS & VINES
NURSERIES, LLC

Azalea Deciduous 'Cannon's Double'

SHRUBS & VINES

Abelia x grandiflora – Azalea deciduous

Abelia x grandiflora 'Kaleidoscope' PP16988

This semi-evergreen shrub has green and yellow variegated leaves and small, fragrant white flowers. Fall color is a striking combination of yellow, orange, pink, and red. Best color in full sun. *Unlicensed propagation prohibited.*

Glossy Abelia • Sun-Part shade • 2.5x4' • Zone 5

Arctostaphylos 'Emerald Carpet'

Evergreen groundcover with small, shiny green leaves. Dense, compact and slow growing. It produces clusters of white urn shaped flowers in early spring, followed by red berries. Drought tolerant in cool summer areas. Deer resistant.

Carpet Manzanita • Sun-Part Shade • 1x6' • Zone 7

Arctostaphylos uva-ursi 'Massachusetts'

An evergreen groundcover with small, deep green leaves. Flowers are white, tinged with pink in spring, scarlet-red fruit appears in late summer.

Kinnikinnick • Sun-Part shade • 1x6' • Zone 2

Aucuba japonica 'Mr. Goldstrike'

This evergreen shrub is heavily variegated with golden-yellow flecks. The glossy leaves add color to shaded areas. A male clone which will not produce berries but will pollinate the ladies!

Gold Dust Plant • Shade • 6x6' • Zone 6

Aucuba japonica 'Variegata'

Adds a nice splash of color to shady areas. This evergreen shrub has glossy green foliage with bold spots of yellow throughout. Will also produce bright red berries when male and female plants are present.

Gold Dust Plant • Part shade-Shade • 6-8x4-6' • Zone 6

Azalea 'Girard's Fuchsia'

Red-violet flowers. Dark, glossy green evergreen leaves take on a reddish color in winter. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun • 3x4' • Zone 5

Azalea 'Girard's Hot Shot'

A rounded, compact evergreen azalea. Flowers are dark red-orange with dark red spotting. Mid-season to late mid-season bloomer.

Evergreen Azalea • Filtered sun-Part shade • 3x4' • Zone 5

Azalea 'Girard's Pleasant White'

An upright, low-growing evergreen azalea with dark green leaves. Large white rounded flowers appear in spring. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun • 3x3' • Zone 5

Azalea 'Girard's Variegated Gem'

Evergreen foliage is variegated with green, edged in white, and showcases rose-pink flowers. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun • 3x4' • Zone 6

Azalea 'Gumpo Pink'

Dwarf evergreen Azalea growing wider than tall. Blooms late spring with showy light pink to pink flowers with a speckled throat.

Evergreen Azalea • Filtered sun • 2x3' • Zone 7

Azalea 'Hino-crimson'

Bright crimson-red flowers cover its glossy, deep green, evergreen foliage that is tinged with red in winter. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun-Part shade • 2-4x3-5' • Zone 6

Azalea 'Hino-white Dwarf'

Clean white, star-shaped flowers engulf the evergreen foliage of this fantastic dwarf shrub. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun • 1x2' • Zone 6

Azalea 'Mother's Day'

This evergreen azalea produces large hose-in-hose rose-red flowers with dark spotting in the throat. Gets its name from almost always blooming around Mother's Day. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun • 5x5' • Zone 6

Azalea 'Pink Clusters'

This evergreen azalea produces frilled pink flowers with orange centers. Leaves take on a reddish hue in winter to add to this plant's beauty. Will tolerate some sun in cool climates.

Evergreen Azalea • Part sun • 3x6' • Zone 6

Azalea Deciduous 'Arneson Gem'

A deciduous azalea with bright green foliage edged in bronze and red fall color. Red buds open to reveal yellow-orange blossoms that are darker toward the margins. Disease resistant. Will tolerate some sun in cool climates. An Exbury hybrid.

Deciduous Azalea • Part sun • 3x4' • Zone 5

SHRUBS & VINES

Azalea deciduous

Azalea Deciduous 'Arneson Golden Solitaire'

Large, pure yellow flowers adorn this compact shrub. Leaves have excellent fall color and disease resistance. An Exbury hybrid.

Deciduous Azalea • Sun-Part shade • 3x4' • Zone 5

Azalea Deciduous 'Candy Lights™'

Light pink-lavender flowers accented with yellow stripes and a wonderful fragrance. This deciduous azalea blooms mid to late spring and has good mildew resistance. A Northern Lights hybrid.

Deciduous Azalea • Sun-Part shade • 5-6x5-6' • Zone 4

Azalea Deciduous 'Cannon's Double'

Creamy yellow and pink hose-in-hose flowers bloom late mid-season. Foliage is green with bronze to red tints on a deciduous shrub with an open habit. An Exbury hybrid.

Deciduous Azalea • Sun-Part shade • 5x5' in 10 yrs • Zone 5

Azalea Deciduous 'Gibraltar'

Fragrant, 2–3", vivid crimson-orange flowers bloom on large trusses mid-season on this deciduous shrub. Foliage is a medium green with leaves that turn bronze to orange in the fall. Mildew resistant. An Exbury hybrid.

Deciduous Azalea • Sun-Part shade • 4-6x4-6' • Zone 5

Azalea Deciduous 'Golden Lights'

Large, fragrant, golden flowers bloom in late mid-season. This dense, mounding, deciduous shrub has green foliage, good mildew resistance and is very cold hardy and heat tolerant. A Northern Lights hybrid.

Deciduous Azalea • Sun-Part shade • 4x4' • Zone 4

Azalea Deciduous 'Henry's Triumph'

Summer bloomer, heavily covered in pink flowers with an orange eye. Deciduous foliage is a nice green. A Weston hybrid.

Deciduous Azalea • Sun-Shade • 8x5' • Zone 3

Azalea Deciduous 'Lemon Lights'

This is a cold hardy azalea with plentiful lemon-yellow flowers that appear late mid-season. Deciduous leaves are elongated and medium green. A Northern Lights hybrid.

Deciduous Azalea • Sun-Part shade • 4x4' • Zone 4

Azalea Deciduous 'Mandarin Lights'

Upright, rounded deciduous shrub with ruffled, lightly fragrant, bright red-orange flowers which bloom late-season. Fall showcases orange-red leaves. A Northern Lights hybrid.

Deciduous Azalea • Sun-Part shade • 6-8x8' • Zone 4

Azalea Deciduous 'Molalla Red'

Large ball-shaped clusters of bright red funnel-shaped flowers on a deciduous, mounding shrub. Bronze over light green foliage turns to bronze-red in the fall. An Exbury hybrid.

Deciduous Azalea • Sun-Part shade • 5x4' • Zone 5

Azalea Deciduous 'Mount Saint Helens'

Deciduous azalea with yellow tinged pink flowers, and a large red-orange throat blotch. Blooms late mid-season on an upright shrub. Flowers are a wide star-shape, with slightly wavy-edged petals. Leaves are yellowish green. A Girard hybrid.

Girard Azalea • Part shade • 6x4' • Zone 4

Azalea Deciduous 'Northern Hi-Lights'

Soft creamy white flowers with a yellow blotch on upper petals make a good contrast against green foliage. Leaves turn burgundy red in fall. Vigorous and very cold hardy deciduous plant. A Northern Lights hybrid.

Deciduous Azalea • Filtered sun • 6x6' • Zone 5

Azalea Deciduous 'Pink-a-boo'

Bright pink flowers with a golden yellow flare in the throat. New growth is bronze in color. A Briggs hybrid.

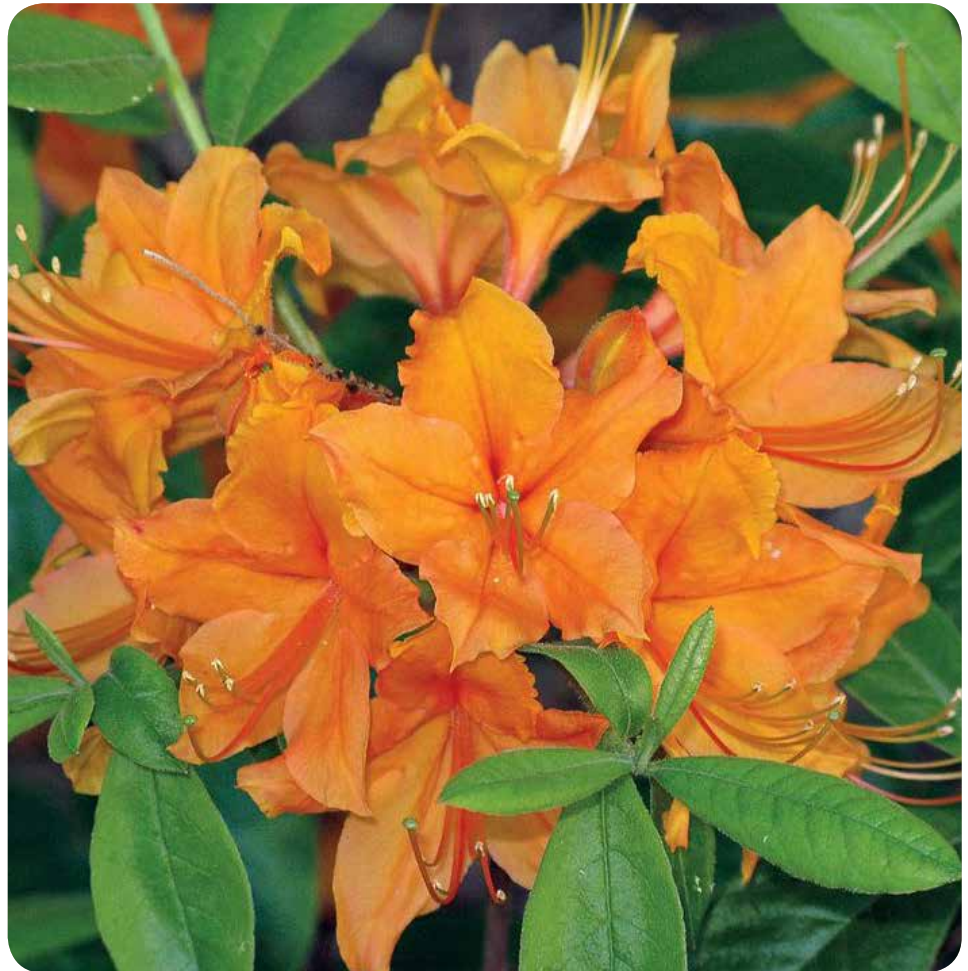

Deciduous Azalea • Sun-Part shade • 5x5' • Zone 5

Azalea Deciduous 'Ribbon Candy'

A deciduous azalea with dark green leaves. Fragrant, reblooming flowers are pink with white stripes. Fall foliage is red and orange. A Weston hybrid.

Deciduous Azalea • Sun-Part shade • 4x3' • Zone 5

Azalea Deciduous 'Tangerine Delight'

A fast growing, large deciduous azalea with abundant fragrant flower clusters. The brilliant orange and peach colored petals open in mid-season. Flowers are intensely scented with a sweet and spicy fragrance. Bright green foliage tinted in burgundy emerges in spring, maturing to a rich dark green. A spectacular specimen.

Deciduous Azalea • Sun-Part shade • 10x8' • Zone 5

Azalea Deciduous 'Rosy Lights'

Deciduous, large, bushy azalea, with fragrant, dark pink flowers, and rose-red shadings. Blooms in late mid-season. A Northern Lights hybrid.

Deciduous Azalea • Sun-Part shade • 8x8' • Zone 4

SHRUBS & VINES

Azalea deciduous – *Berberis thunbergii*

Azalea Deciduous 'Tri Lights™'

Rose-pink buds open to flowers of white to purple-pink, blotched with pink. Late mid-season. A Northern Lights hybrid.

Deciduous Azalea • Sun-Part shade • 5x5' • Zone 4

Azalea Deciduous 'Western Lights'

Large, tubular, clear pink flowers in late mid-season. Foliage is a strong yellow-green. A Briggs hybrid.

Deciduous Azalea • Sun-Part shade • 3x3' • Zone 4

Azalea Deciduous 'Weston's Innocence'

Large white, heavily scented flowers bloom densely on this mounded shrub. Foliage has reddish burgundy fall color, resists mildew. A Weston hybrid.

Deciduous Azalea • Sun-Part shade • 3x3' • Zone 4

Azalea Deciduous 'Weston's Lollipop'

Deciduous azalea with spreading form. Fragrant pink blooms have a yellowish flare and appear in early summer. Foliage is a bronze-green turning red-orange in the fall. Mildew resistant. A Weston hybrid.

Deciduous Azalea • Sun-Part shade • 4x5' • Zone 4

Azalea Deciduous 'Weston's Lemon Drop'

Peach flower buds open to pastel yellow in summer. Flowers have a light lemon scent. Small leaves are dusty blue-green in summer and turn dark pink-red to yellow in fall. Mildew resistant. A Weston Hybrid.

Weston Azalea • Sun-Part shade • 6' tall in 10 years • Zone 4

Berberis thunbergii 'Admiration' PP16921

A compact, rounded shrub with vivid coral red leaves that have golden yellow margins. Rust resistant. *Unlicensed propagation prohibited.*

Barberry • Full sun • 2x2' • Zone 4

Berberis thunbergii 'Bogozam', Bonanza Gold®

This dwarf, golden barberry is a low rounded, deciduous shrub with bright yellow leaves that resist leaf scorch. Fall color is orange. Low maintenance.

Barberry • Sun-Part sun • 1.5x3' • Zone 4

Berberis thunbergii 'Concorde'

Low growing and dense shrub is ideal for the front of the border. Deep burgundy foliage. Spring blooms are yellow.

Barberry • Full sun • 18-24x18-24" • Zone 4

Berberis thunbergii 'Orange Rocket' PP18411

Upright, columnar habit on this deciduous shrub with bright orange-red foliage. Foliage becomes a brilliant red in fall. Rust resistant. *Unlicensed propagation prohibited*

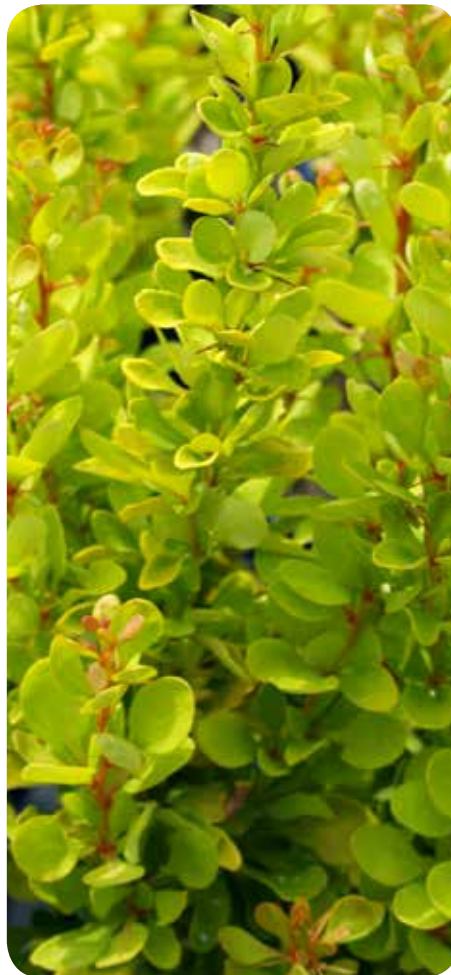

Barberry • Sun-Light shade • 4x1.5' • Zone 4

Berberis thunbergii 'Fireball' PP21100

A compact, rounded, deciduous shrub. Its vibrant, bright fiery-red foliage stands out in the landscape. This cultivar is Federally approved as cereal rust resistant. *Unlicensed propagation prohibited.*

Barberry • Sun-Part sun • 2x2' • Zone 4

Berberis thunbergii 'Golden Rocket' PP18626

Tight columnar habit that has bright chartreuse foliage with coral stems and tip growth. Rust resistant. *Unlicensed propagation prohibited.*

Barberry • Sun-Light shade • 4x1.5' • Zone 4

Berberis thunbergii 'Gentry Cultivar', Royal Burgundy®

Rich burgundy foliage retains dark color throughout the season. Dark red to black fall color. Compact growth forms mounds.

Barberry • Full sun • 2x3' • Zone 4

Berberis thunbergii 'Rose Glow'

Small, rounded, deciduous shrub with marbled bronze-red and mottled pink and white leaves that darken to rose-bronze. Bright red berries in the fall attract birds. Best color in full sun. Rust resistant.

Barberry • Sun-Light shade • 3-6x4-7' • Zone 4

SHRUBS & VINES

Buxus sempervirens – Ceanothus impressus

Buxus sempervirens

Dense evergreen that holds its rich green color well throughout the year. Tolerates shearing and is ideal for formal gardens.

Boxwood • Sun-Part shade • 15x15' • Zone 5

Buxus sempervirens 'Aureo-variegata'

Loosely mounded evergreen shrub with light green foliage that has a creamy margin. Tolerates pruning well.

Boxwood • Sun-Part sun • 8x8' • Zone 5

Buxus sempervirens 'Graham Blandy'

An upright, columnar boxwood for narrow hedges or an accent.

Boxwood • Sun-Part sun • 6-8x1-2' • Zone 5

Buxus sempervirens 'Suffruticosa', Dwarf English

Slow growing, dense, compact evergreen with mounding habit. Has small, glossy, dark green foliage. Good in borders.

Boxwood • Sun-Part sun • 4x4' • Zone 5

Buxus x 'Green Mountain'

Lustrous evergreen foliage is borne on a plant that has a naturally conical shape. Regular pruning enhances the shape even further.

Boxwood • Sun-Part sun • 6-8x3-5' • Zone 5

Buxus sinica var. insularis 'Wintergreen'

Mounded evergreen shrub has dainty, rounded leaves that are a lustrous green throughout the year. Tolerates pruning well. Deer resistant.

Boxwood • Sun-Part sun • 3-4x3-4' • Zone 5

Buxus x 'Green Velvet'

Deserving of its name this evergreen shrub has lovely green foliage that remains throughout the year. A compact and bushy plant. Tolerates pruning well.

Boxwood • Sun-Part sun • 3-4x3-4' • Zone 5

Calluna vulgaris 'Kinlochruel'

Bright green foliage turns bronze in winter. Long racemes of double white flowers bloom in summer.

Heather • Full sun • 10x16" • Zone 5

Calluna vulgaris 'Multicolor'

Abundant late summer pink-mauve flowers over a base of copper, orange and red foliage. Early and mid summer foliage is more green. Low and spreading

Heather • Full sun • 6-8x8-12" • Zone 5

Calluna vulgaris 'Spring Torch'

Medium green foliage has pink and red tips in the winter and spring, then cream and pink tips in the summer. Mauve flowers bloom August to October. Good in borders, rock gardens, and containers.

Heather • Full sun • 16x24" • Zone 5

Camellia japonica 'Curly Lady' PP17014

This unique Camellia is a large evergreen shrub with dark green, glossy, slightly twisted leaves and twisted, curling branches. Large buds develop in winter and open up into large rosettes of pinkish red flowers in early spring producing a spectacular show. Plant away from cold winter winds and morning sun. *Unlicensed propagation prohibited.*

Camellia • Full shade • 8x5' • Zone 7

Ceanothus 'Lemon Ice' PP20938

This evergreen shrub has bushy, upright and stiff stems. Dark green centers and broad, yellow margins make the foliage stand out in the garden. Fragrant, light blue flowers attract pollinators. Compact habit. *Unlicensed propagation prohibited.*

California Lilac • Sun-Part sun • 5x4' • Zone 6

Ceanothus impressus 'Victoria'

Dense, rounded evergreen shrub has very dark glossy green foliage. In early summer it blooms heavily with clusters of blue flowers. Very drought tolerant when established, takes shearing and withstands salt spray, making it a great candidate for coastal gardens.

California Lilac • Sun-Part sun • 9x9' • Zone 8

SHRUBS & VINES

Choisya ternata – Euonymus fortunei

Choisya ternata 'Lich', Sundance

This glossy, evergreen shrub has yellow-green to golden round-lobed, palmate leaves. White flowers in late spring and late summer give off an orange blossom fragrance.

Mexican Orange • Part shade • 8x8' • Zone 7

Choisya x 'Aztec Pearl'

This evergreen shrub has fragrant white flowers tinged with pink. The narrow lobed, palmate leaves are glossy green. Deer resistant.

Mexican Orange • Full sun • 8x8' • Zone 8

Cornus alba 'Bailhalo', Ivory Halo®

Deciduous, compact shrub with green and white variegated foliage that turns a dusty red in fall. Clusters of fragrant, creamy white flowers bloom late spring, attracting birds. Bright red stems in winter.

Dogwood • Sun-Part sun • 6x6' • Zone 3

Cotinus coggygria 'Royal Purple'

Deciduous, multi-stemmed shrub with broad, urn shaped habit has deep purple-red leaves that maintain their color throughout the growing season. Clusters of tiny spring flowers are followed by attractive, airy puffs of smoky pink seeds that last from June to August or September.

Smoke Tree • Full sun • 15x12' • Zone 5

Cornus sericea 'Kelsey'

Low growing, deciduous shrub with a compact, dense habit. In fall, bright red twigs are adorned with reddish purple leaves.

Dogwood • Sun-Shade • 2x3' • Zone 2

Cotoneaster dammeri, Bearberry

Evergreen groundcover. Small, glossy, deep green, leathery leaves line sturdy prostrate branches. White flowers in spring followed by red rose-hip looking berries. Fall leaves are tinged with purple.

Cotoneaster • Full sun • 12"x4-6' • Zone 5

Erica x darleyensis 'Mediterranean White'

Blooms late winter to early spring with white flowers. Evergreen, dense mound of needle-like foliage.

Heath • Full sun • 8-12x30-36" • Zone 6

Erica x darleyensis 'Mediterranean Pink'

Blooms late winter to early spring with rose-pink flowers. Evergreen, dense, mound of needle-like foliage.

Heath • Full sun • 8-12x30-36" • Zone 6

Euonymus alatus 'Compactus'

Deciduous vase shaped shrub. Branches have thin tan corky strips. Tapered, drooping leaves turn a brilliant red in the fall.

Dwarf Burning Bush • Full sun • 6-8x6-8' • Zone 4

Escallonia x exoniensis 'Fradesii', Pink Princess

This evergreen shrub boasts showy, trumpet-shaped, pink flowers that bloom spring through fall. Suitable for maritime environments, making it an excellent windbreak hedge.

Escallonia • Sun-Part shade • 5x5' • Zone 7

Euonymus alatus 'ODOM', Little Moses PP13168

Smaller, mounded version of the classic dwarf burning bush. This densely branched, multi-stemmed shrub has tapered drooping leaves that emerge lime-green, mature to pale green, and finally turn brilliant red in fall. *Unlicensed propagation prohibited.*

Dwarf Burning Bush • Sun-Shade • 3x3' • Zone 4

Euonymus fortunei 'Emerald Gaiety'

A broadleaf, semi-evergreen shrub with low mounded or sprawling trailing stems. Glossy green leaves are edged in white, tinged pink in winter. Climbing habit if planted next to a taller shrub or structure.

Wintercreeper • Sun-Part sun • 2-3x3-4' • Zone 5

SHRUBS & VINES

Euonymus fortunei – Hydrangea arborescens

Euonymus fortunei 'Emerald 'n Gold'

Low, mounding evergreen shrub has 1.5" emerald green leaves with golden edges that tint pink in winter. Mature plants produce tiny, greenish white flowers, followed by pinkish red fruit that attracts birds. Climbs if planted next to a taller shrub or structure.

Wintercreeper • Sun-Part sun • 2-3x3-4' • Zone 5

Euonymus fortunei 'Moonshadow'

Evergreen groundcover or low hedge can reach heights of 5' tall if not sheared. Glossy green leaves have yellow blotch in the middle. Markings are variable between new and mature leaves.

Wintercreeper • Sun-Part sun • 3x5' • Zone 5

Euonymus japonicus 'Aureo-marginatus'

Upright evergreen shrub. Shiny 3" golden yellow leaves with green centers create a bold color statement. Useful as a low hedge or specimen plant. Best color in full sun.

Euonymus • Sun-Part sun • 10x8' • Zone 6

Euonymus japonicus 'Silver King'

Upright evergreen dense shrub. Glossy green leaves are edged in bright white. Useful as a low hedge or screen. Best color in full sun.

Euonymus • Sun-Part sun • 6-8x3-4' • Zone 6

Exochorda 'Snow Mountain' PP25473

This spectacular shrub bursts into bloom from top to bottom all at once in early spring. More compact habit, very floriferous. A traditional favorite for beds and borders. Blooms on previous season's (old) wood. *Unlicensed propagation prohibited.*

Pearlbush • Full sun • 5-6x5-8' • Zone 4

Gaultheria shallon

Light pink urn-shaped flowers bloom on upright evergreen shrub that spreads by suckers. Red, slightly hairy stems are covered with glossy, dark green foliage.

Salal • Filtered sun-Part shade • 4x5' • Zone 6

Genista tinctoria 'Royal Gold'

Low growing shrub with upright branches massed with pea shaped, golden yellow flowers. Blooms June through September. Drought tolerant.

Woadwaxen • Full sun • 2x3' • Zone 4

Hibiscus syriacus 'Diana'

Showy pure white flowers bloom mid-summer to early fall. This deciduous vase-shaped shrub has dark green, leathery leaves that are deer resistant. Ideal for a range of conditions; heat, humidity, drought, and salt tolerant.

Rose of Sharon • Sun-Part shade • 8x6' • Zone 5

Hibiscus syriacus 'Minerva'

Lavender flowers with a pink overlay and dark red eye provide a welcome color accent during a long summer flowering season. It has leathery, dark green leaves and a dense, compact growth habit. Highly tolerant to air pollution and drought.

Rose of Sharon • Sun-Part shade • 9x7' • Zone 5

Hibiscus syriacus 'Notwoodone', Lavender Chiffon™ PP12619

A vigorous, upright, vase-shaped, multi-stemmed, deciduous shrub. Semi-double, lavender flowers appear over a long, early-summer to fall bloom period. Each flower has a prominent and showy center staminal column. Coarsely-toothed, three-lobed leaves are an attractive medium green. *Unlicensed propagation prohibited.*

Rose of Sharon • Sun-Part shade • 8x6' • Zone 5

Hibiscus syriacus 'Notwoodthree', Blue Chiffon™ PP20574

Late blooming, large blue semi-double flowers make this a must-have for the fall garden. This upright, vase-shaped deciduous shrub has light green leaves and is deer resistant. Ideal for a range of conditions; heat, humidity, drought, and salt tolerant. *Unlicensed propagation prohibited.*

Rose of Sharon • Full sun • 12x6' • Zone 5

Hydrangea anomala petiolaris

Glossy green, heart shaped leaves on woody deciduous vines. Clusters of large, white, lacecap flowers bloom late June into July. Exfoliating cinnamon-brown older bark. Good vigorous cover for walls or other strong supports.

Climbing Hydrangea • Part shade-Shade • 30-50x5-6' • Zone 4

Hydrangea arborescens 'Annabelle'

Rounded deciduous shrub has green, oval leaves. Large clusters (up to 12" across) of creamy white, sterile flowers bloom June through July, and again from late August through September.

Hydrangea • Part shade • 4-6x4-6' • Zone 3

SHRUBS & VINES

Hydrangea macrophylla – Hydrangea quercifolia

Hydrangea macrophylla 'Dancing Angel', Sweet Fantasy PP20140

A lovely speckled, long blooming mophead. Flowers have a light background with dark markings, pink to blue depending on soil. Fall leaf color has streaks of red throughout.

Hydrangea • Sun-Part shade • 3x3' • Zone 5

Hydrangea macrophylla 'Dancing Snow', Wedding Gown PP21052

Early blooming lacecap keeps blooming till frost. Double white flowers stand out against deep green leaves. *Unlicensed propagation prohibited.*

Hydrangea • Part shade • 3x5' • Zone 5

Hydrangea macrophylla 'H2002', Miss Saori PP26657

Unusual flowers will make this mophead a summertime focal point. Double flowers are white, and each petal is edged in rosy pink. New leaves emerge bronze with light veins, and mature to a bronze tinted green. Blooms on old and new wood. *Unlicensed propagation prohibited.*

Hydrangea • Part Shade • 4x4' • Zone 5

Hydrangea macrophylla 'Horwack', Pistachio PP25577

Multi-colored flowers of green to red with purple centers, reblooming on new wood until frost. Offers good disease resistance. Compact, mounding form. *Unlicensed propagation prohibited.*

Hydrangea • Part shade • 3x4' • Zone 6

Hydrangea macrophylla 'Kompeito', Star Gazer PP20998

Compact, reblooming lacecap has pink to blue flowers with white picotee edges. *Unlicensed propagation prohibited.*

Hydrangea • Part shade • 4x5' • Zone 5

Hydrangea macrophylla 'Lindsey Ann', L.A. Dreamin[®] PP26249

A unique, compact hydrangea, producing blue, purple and pink mophead flowers at the same time. Flowering continues from late spring to fall. *Unlicensed propagation prohibited.*

Hydrangea • Sun-Part shade • 3x3' • Zone 5

Hydrangea macrophylla 'McKay', Cherry Explosion PP28757

A very hardy macrophylla with a rounded form. In spring, it is fully covered with star-like pink flowers that are encased by cherry red petals. Fall foliage color is burgundy. *Unlicensed propagation prohibited.*

Hydrangea • Sun-Part shade • 4x4' • Zone 4

Hydrangea macrophylla 'Pia'

Dwarf, deciduous shrub has dark green leaves. Four inch globes of pink to pale red flowers bloom July into September. Petals twist and curl as the flowers age. Colorful and easy to grow.

Hydrangea • Part shade • 18x24" • Zone 6

Hydrangea macrophylla 'PIIHM-II', BloomStruck[™] PP25566

Depending on soil pH, the flowers on BloomStruck[™] can be vivid rose-pink or purple. Red-purple stems, dark green leaves, red petioles, and red veins create a unique contrast. Heat tolerant and disease resistant. *Unlicensed propagation prohibited.*

Hydrangea • Part shade • 4x5' • Zone 4

Hydrangea macrophylla 'Red Sensation' PP18197

Reblooming mophead, brilliant red flowers age to purple. *Unlicensed propagation prohibited.*

Hydrangea • Part shade • 3x3' • Zone 4

Hydrangea macrophylla 'Zorro' PP18255

A recipient of the Award of Garden Merit, this lacecap produces deep blue flowers in acidic soils and pink flowers in neutral soils. The purple to black stems contrasts nicely against the glossy, dark green foliage. Autumn color is tinged in red. *Unlicensed propagation prohibited.*

Hydrangea • Part shade • 4x3' • Zone 5

Hydrangea paniculata 'Bombshell' PP21008

White flowers bloom prolifically covering this dwarf variety from mid-summer to frost. Requires very little pruning to maintain compact size. *Unlicensed propagation prohibited.*

Hydrangea • Sun-Part shade • 2x3' • Zone 4

Hydrangea paniculata 'Jane', Little Lime® PP22330

Dwarf form of 'Limelight' hydrangea. Little Lime® has flower panicles that emerge creamy white, becoming chartreuse-green, then pink-rose, and finally fading to beige. Dark green leaves become red in the fall. *Unlicensed propagation prohibited.*

Hydrangea • Sun-Part shade • 5x5' • Zone 3

Hydrangea paniculata 'Paszam', Passionate™

Huge flower panicles are white with a slight pink cast, and sturdy stems keep them upright. Flowers will age to mauve-pink. An upright, vase-shaped shrub, it's perfect for the back of the border or as a screen.

Hydrangea • Sun-Shade • 8x10' • Zone 4

Hydrangea paniculata 'Phantom'

'Phantom' hydrangea features bold conical white flowers with pink overtones from mid-summer to late fall. The flowers are excellent for cutting. It has green foliage throughout the season.

Hydrangea • Sun-Part shade • 10x8' • Zone 4

Hydrangea quercifolia 'Little Honey' PP15477

Bright gold foliage on this dwarf oakleaf hydrangea is set off by deep reddish brown stems. The gold persists through summer, then turns scarlet in fall. White 6" conical panicles of sterile flowers appear in summer. *Unlicensed propagation prohibited.*

Oakleaf Hydrangea • Part shade • 3x3' • Zone 5

Hydrangea quercifolia 'Ruby Slippers'

This compact hydrangea produces large panicles of white flowers that change to pink, then ruby-red. Deep green leaves turn mahogany-red in fall.

Oakleaf Hydrangea • Sun-Part shade • 4x5' • Zone 5

SHRUBS & VINES

Ilex crenata – *Pieris japonica*

***Ilex crenata* 'Sky Pencil'**

A strongly upright evergreen that is a fantastic choice for adding vertical accents to the landscape. Small rounded leaves are glossy green and grow densely along the vertical branches. Also works well in containers.

Japanese Holly • Sun-Part sun • 6-8x2' • Zone 6

***Ilex x meserveae* 'Blue Prince/Princess Combo'**

A combination of male and female plants ensure that this evergreen shrub will produce abundant dark red fruit. Lustrous, spiny, blue-green foliage is attractive year-round.

Blue Holly • Sun-Part shade • 15x10' • Zone 4

***Leucothoe fontanesiana* 'Rainbow'**

Green, lance-shaped leaves are mottled with pink and cream. Upright, arching branches have clusters of white flowers on the tips.

Drifting Leucothoe • Part sun • 5x6' • Zone 5

***Ilex verticillata* 'Red Sprite'**

A deciduous holly with a profusion of large red berries in winter. Requires a male pollinator. Dwarf and compact in form.

Winterberry • Sun-Part shade • 3x5' • Zone 3

Mahonia aquifolium

Bushy, upright, evergreen shrub has glossy, holly-like leaves opening bronze, turning deep green with a few red leaves mixed in. Clusters of yellow flowers in April or May are followed by powdery blue berries. Needs some shade in warmer areas.

Oregon Grape • Sun-Shade • 5-6x3-6' • Zone 5

***Mahonia repens*, Creeping Oregon Grape**

Creeping mahonia is a low, spreading, evergreen groundcover with a stiff habit. Pinnately compound leaves are dull blue-green in summer, rich purple in winter. Deep yellow flowers bloom in April, and fruit is black, grape-like, and covered with a blue bloom, from August to September.

Oregon Grape • Sun-Part shade • 12x18" • Zone 5

***Mahonia nervosa*, Cascade Oregon Grape**

This suckering shrub forms a loose, evergreen mass with lustrous emerald leaves, panicles of canary-yellow flowers in May, and waxy blue berries in autumn. It is durable and an excellent choice when the plant palette is limited to native plants. It is adaptable to difficult growing situations.

Oregon Grape • Sun-Shade • 3x4' • Zone 5

Nandina domestica 'Firepower'

Green foliage turning a brilliant fire-red in fall lasting through winter. Requires no pruning. Full sun for best color.

Heavenly Bamboo • Sun-Shade • 18x24" • Zone 6

Nandina domestica 'Gulf Stream'

Evergreen shrub with soft looking foliage. Leaves turn a beautiful red color in the fall. Stays compact and bushy without much maintenance.

Heavenly Bamboo • Full sun • 3x3' • Zone 6

Nandina domestica 'Tuscan Flame' PP21940

Bright coral to russet red toned new growth turns green. It's compact rounded habit makes it suitable for not only landscape plantings but also containers. *Unlicensed propagation prohibited.*

Heavenly Bamboo • Sun-Light shade • 3-4x2-3' • Zone 6

Osmanthus heterophyllus 'Gulf tide'

Tall evergreen shrub with leathery green leaves that have both smooth and spiny margins. Branching is very thick making it a good specimen for hedges or screens. Inconspicuous, but fragrant, white flowers. Deer resistant.

False Holly • Sun-Part Shade • 10x8' • Zone 6

Pieris japonica 'Flaming Silver'

Compact evergreen with upright, tiered, dense growth. Fiery red new growth turns chartreuse, then matures to variegated green and cream. White flowers in spring. Protect from strong winds.

Lily-of-the-Valley Shrub • Filtered sun-Part shade • 4-6x4-6' • Zone 5

Osmanthus heterophyllus 'Goshiki'

Foliage has year round color that includes leaves that are mottled yellow, pink, green and white after emerging red. Deer resistant.

False Holly • Full Sun-Part shade • 3x4' • Zone 6

Physocarpus opulifolius 'Podaras 3', Lemon Candy™ PP22362

Compact, mounding shrub with bright gold foliage in full sun. Small white blooms in mid to late spring add a nice contrast to the foliage. *Unlicensed propagation prohibited.*

Ninebark • Full sun • 3x2' • Zone 3

SHRUBS & VINES

Pieris japonica – Prunus x cistena

Pieris japonica 'Katsura' PP15452

A medium, dome-shaped, evergreen shrub with red leaves in spring that turn to long, lustrous, dark green leaves. It flowers freely, producing arching racemes of rose-coloured, bell-shaped flowers in spring. *Unlicensed propagation prohibited.*

Lily-of-the-Valley Shrub • Part shade • 5x5' • Zone 4

Pieris japonica 'Mountain Fire'

Evergreen shrub has fiery red new leaves that mature to deep green. Pendulous clusters of white flowers bloom March and April.

Lily-of-the-Valley Shrub • Filtered sun-Part shade • 6-8x3-4' • Zone 5

Pieris japonica 'Passion' PP19319

Cherry red flowers crowned in white drape over glossy dark green foliage. Deer resistant. *Unlicensed propagation prohibited.*

Lily-of-the-Valley Shrub • Filtered sun-Part shade • 5x3' • Zone 5

Pieris japonica 'Prelude'

This compact broadleaf evergreen has bronzy new leaves that mature deep green. Pendulous clusters of white flowers bloom March and April.

Lily-of-the-Valley Shrub • Filtered sun-Part shade • 2-3x2-3' • Zone 5

Pieris japonica 'Valley Valentine'

Dense, upright habit of dark green foliage. Dark pink-red flowers in early spring.

Lily-of-the-Valley Shrub • Filtered sun-Part shade • 7x5' • Zone 5

Prunus glandulosa 'Sinensis'

A profusion of double pink cherry-like flowers cover this deciduous shrub just prior to the foliage emerging. Used as a specimen or planted in a mass, the spring display is striking.

Dwarf Flowering Almond • Sun-Part sun • 3x4' • Zone 4

Pieris japonica 'Ralto', Passion Frost® PP19331

Dense, upright shrub of green and white variegation with red-pink blossoms in spring. *Unlicensed propagation prohibited.*

Lily-of-the-Valley Shrub • Filtered sun-Part shade • 5x3' • Zone 5

Prunus laurocerasus 'Otto Luyken'

Low growing evergreen shrub. Glossy dark green foliage. White flower spikes in spring.

Laurel • Full sun • 4-6x8-10' • Zone 6

Prunus laurocerasus 'Schipkaensis'

Evergreen shrub has glossy deep green leaves. Racemes of very fragrant white flowers bloom freely and abundantly in spring, attracting butterflies. Red berries ripen black and attract birds. Good as a privacy screen. Needs some shade in hot areas.

Laurel • Sun-Shade • 8-10x8' • Zone 6

Prunus lusitanica

Large evergreen shrub or small tree has glossy dark green leaves. 10" long racemes of fragrant white flowers attract butterflies. Red berries ripen black and attract birds.

Portuguese Laurel • Sun-Part sun • 15x15' • Zone 7

Prunus x cistena

Medium sized deciduous shrub grown for its pink spring flowers and deep purple foliage.

Purpleleaf Sand Cherry • Sun-Part shade • 7x6' • Zone 2

Rhamnus frangula 'Columnaris'

Tall, narrow, deciduous shrub usually used for a hedge. Glossy, green leaves persist into late fall. Tiny greenish spring flowers precede black berries in late summer which are a favorite of birds.

Buckthorn • Sun-Part shade • 12x4' • Zone 3

Rhamnus frangula 'Ron Williams', Fine Line® PP14791

This columnar buckthorn has narrow, green, fern-like foliage that turns yellow in the fall. Deer resistant and drought tolerant. Ideal for containers or narrow beds. *Unlicensed propagation prohibited.*

Buckthorn • Part sun-Shade • 7x2' • Zone 3

SHRUBS & VINES

Rhododendron

Rhododendron 'Anah Kruschke'

Rich reddish purple flowers, sun and heat tolerant. Mid-season bloomer.

Rhododendron • Full sun-Part shade • 6-10x10' • Zone 5, H2

Rhododendron 'Besse Howells'

Frilled raspberry-red flowers with dark blotch. Early to mid-season bloom, compact growing habit. Reliable bud set, tolerant of cold temperatures.

Rhododendron • Part shade • 4x6' • Zone 5, H2

Rhododendron 'Capistrano'

Frilly greenish yellow flowers bloom mid-season on a mounding shrub with dark green leaves.

Rhododendron • Full sun-Part shade • 3-5x4-5' • Zone 6, H2

Rhododendron 'Catawbiense Album'

A cold-hardy evergreen shrub, 'Catawbiense Album' has light lavender buds which open to reveal white flowers with a green-yellow blotch. Blooms late midseason. Leaves are dark green.

Rhododendron • Part shade • 5x6' • Zone 5, H1

Rhododendron 'Catawbiense Boursault'

Dark, rose-lilac flowers bloom abundantly in late mid-season. Foliage is bright green, covering dense spreading growth. Cold hardy.

Rhododendron • Sun-Part shade • 6X7' • Zone 5, H1

Rhododendron 'Catawbiense Grandiflorum'

Large trusses of rosy lavender flowers bloom on uniformly rounded evergreen shrub. Makes nice screening or hedge. Mid-season bloomer.

Rhododendron • Sun-Part shade • 6x10' in 10 years • Zone 4, H1

Rhododendron 'Chionoides'

Pure white flowers with yellow flare inside. Tolerates wind, sun, and heat. Mid-season bloomer.

Rhododendron • Full sun-Part shade • 4-5x5' • Zone 6, H2

Rhododendron 'Double Besse'

Compact, mounding shrub displays frilled, raspberry-red, hose-in-hose flowers. Bright green foliage adds contrast. Late season bloomer.

Rhododendron • Sun-Part shade • 4-5x5' • Zone 5, H1

Rhododendron 'English Roseum'

Soft mauve-pink flowers bloom mid-late season. Fast growing plant tolerates extremes of cold, heat and humidity.

Rhododendron • Sun-Part shade • 6x6' • Zone 5, H1

Rhododendron 'Edith Bosley'

Deep purple flowers with red-purple throats bloom on upright, spreading evergreen shrub with long-lasting green foliage. Mid-season bloomer.

Rhododendron • Sun-Partshade • 4-5x5' • Zone 6, H2

Rhododendron 'Everred'

A compact, rounded evergreen with waxy, deep red blooms. Leaves emerge shiny black-red, fading to dark green.

Rhododendron • Dappled shade • 2x2.5' • Zone 7, H4

Rhododendron 'Fantastica'

Wavy flowers have shiny, light red edges and creamy pink centers. Mid-season bloomer grows in a dense compact form.

Rhododendron • Sun-Partshade • 3x4' • Zone 6, H2

Rhododendron 'Fire Rim'

Frilly edged flowers are light yellow with purple-red edges. Ball-shaped trusses open early mid-season. Olive green leaves grow densely on this compact shrub.

Rhododendron • Part sun • 3x3' in 10yrs • Zone 8, H4

Rhododendron 'Firestorm'

Deep red flowers open late season. New growth is a frosty lime-green. Dense and spreading. Slow growing.

Rhododendron • Sun-Partshade • 4x5' • Zone 5, H1

Rhododendron 'Florence Parks'

A heavy blooming shrub with deep purple flowers and dark spotting. Contrasts nicely against dark foliage. Very hardy, late mid-season bloomer.

Rhododendron • Sun-Light shade • 5x6' • Zone 4, H1

SHRUBS & VINES

Rhododendron

Rhododendron 'Golden Torch'

Pink buds open to pinkish yellow flowers in mid-season. Nice foliage on a compact shrub.

Rhododendron • Sun-Part shade • 3x3' • Zone 7, H4

Rhododendron 'Hachmann's Polaris'

Frilly flowers are deep pink at the edges, becoming lighter towards the centers, with yellow-green markings. A late mid-season bloomer. This shrub forms a compact mound with very fuzzy leaves.

Rhododendron • Sun-Shade • 3x3' in 10 yrs • Zone 6, H2

Rhododendron 'Hellikki'

Large trusses of frilled, dark violet-pink flowers bloom on dense evergreen shrub with leathery, medium green foliage. Late season, very cold hardy.

Rhododendron • Sun-Part shade • 5x5' • Zone 5, H1

Rhododendron 'Helsinki University'

Upright, rounded shrub displays large clusters of lightly scented, bright pink flowers with red-orange spotting. Reddish new growth matures glossy green. Late season bloomer.

Rhododendron • Part shade • 6x4' • Zone 5, H1

Rhododendron 'Holden'

Large, frilly, funnel-shaped flowers are deep pink with red spotting. Bloom time is mid-season. Shiny, dark green foliage is evergreen, and heat tolerant.

Rhododendron • Sun-Part shade • 5x5' in 10 years • Zone 6, H2

Rhododendron 'Honey Butter'

Yellow-orange flowers with pink midribs bloom mid-season in dome-shaped trusses. New growth emerges glossy wine-red with a compact habit.

Rhododendron • Part shade • 3x3' in 10 years • Zone 7, H4

Rhododendron 'Kabarett'

This captivating evergreen shrub is covered in mid-season by stunning clusters of lavender trumpet-shaped flowers with pink overtones and a burgundy blotch. Flowers are lightly scented, and foliage is dark green.

Rhododendron • Sun-Part shade • 6x6' • Zone 6, H3

Rhododendron 'Kalinka'

Ruffled ruby-pink flowers with dark red rims, blooms late mid-season.

Rhododendron • Sun-Part shade • 6x6' • Zone 6, H2

Rhododendron 'Lee's Dark Purple'

Compact shrub with very dark purple buds opening to purple flowers, with brownish spotting. Flowers are held in ball-shaped trusses, in late mid-season. Foliage is glossy, dark green, and slightly wavy. Heat tolerant.

Rhododendron • Sun-Part shade • 6x8' • Zone 6, H2

Rhododendron 'Lemon Dream'

Pastel yellow flowers may be single or double. This low mounding evergreen shrub has dark green foliage with a brown-orange indumentum. Midseason.

Rhododendron • Sun-Light shade • 5x6' • Zone 7, H4

Rhododendron 'Marylou'

For vivid color, try this mid-season bloomer. Beautiful light peach flowers have a yellow center and a deep red blotch.

Rhododendron • Sun-Part shade • 4x4' • Zone 7, H4

Rhododendron 'Melrose Flash'

This upright mounding evergreen shrub displays creamy ivory flowers with broad pink, ruffled edges and deep green foliage. Late season bloomer that is heat tolerant.

Rhododendron • Sun-Part shade • 5x4' • Zone 7, H4

Rhododendron 'Minnetonka'

Large purple flower buds open to lavender funnel-shaped flowers that fade toward the center. Yellow-green throat spots appear on one upper lobe. Evergreen foliage has wavy margins, and forms a spreading mound.

Rhododendron • Sun-Part shade • 3x3' in 10 yrs • Zone 5, H1

Rhododendron 'Neon'

Compact evergreen Rhododendron with striking orange-peach bell-shaped flowers with a yellow throat.

Rhododendron • Sun-Part shade • 3x4' • Zone 7, H3

Rhododendron 'Nova Zembla'

Dark red flowers bloom in ball-shaped trusses with deep green foliage. A popular mid-season, bushy shrub.

Rhododendron • Part sun • 5x6' • Zone 5, H1

Rhododendron 'Pink Parasol'

Pale mauve-pink blooms age to white, spotted with orange-yellow. Blooms early midseason. Foliage on this rounded evergreen is blue-green, with a tan indumentum.

Rhododendron • Sun-Light shade • 3x6' in 10 yrs • Zone 5, H2

Rhododendron 'Polarnacht'

Late mid-season flowers are deep purple-red with dark red spotting. Leaves are dark green on this mounding shrub.

Rhododendron • Part sun-Part shade • 3x6' in 10 yrs • Zone 6, H3

Rhododendron 'Pomegranate Splash'

Mid-season flowers are pale purple-pink with strongly contrasting purple-red margins, blotch, and spotting. Foliage is dark green.

Rhododendron • Part sun-Part shade • 5x4' in 10 yrs • Zone 8, H5

SHRUBS & VINES

Rhododendron – Rosa

Rhododendron 'Rangoon'

Funnel-shaped pink-lilac flowers with reddish brown spotting, aging to pink. Blooms late midseason. Large rounded olive green leaves. Tolerates heat and cold, but protect from harsh sun and wind.

Rhododendron • Sun-Part Shade • 4x8' • Zone 6, H2

Rhododendron 'Roseum Elegans'

Funnel-shaped pink-lilac flowers with reddish brown spotting, aging to pink. Blooms late midseason. Large rounded olive green leaves. Tolerates heat and cold, but protect from harsh sun and wind.

Rhododendron • Sun-Shade • 6x8' in 10 yrs • Zone 5, H1

Rhododendron 'Scintillation'

Mid-season flowers are purple-pink, lighter towards the center with green-yellow throat markings. Large leaves are glossy dark green.

Rhododendron • Partshade • 4x4' in 10 yrs • Zone 6, H2

Rhododendron 'Tapestry'

Flowers on this evergreen shrub are funnel-shaped, purple with a dark purple blotch, and with wavy-edged petals. This dense grower has dark green leaves. Late mid-season.

Rhododendron • Sun-Filtered sun • 4' in 10 yrs • Zone 5, H2

Rhododendron 'Vulcan's Flame'

Funnel-shaped, cardinal red flowers bloom late mid-season on this compact shrub. Deep green leaves have red petioles. Heat and sun tolerant.

Rhododendron • Sun-Part sun • 5x6' in 10 yrs • Zone 6, H2

Rhododendron 'Wine and Roses'

New semi-dwarf hybrid with hot pink flowers. The new leaves emerge bronze on top and bright reddish purple underneath and harden off to glossy emerald green.

Rhododendron • Sun-Part shade • 4x4' • Zone 7, H4

Rhododendron 'Wojnar's Purple'

Wavy-edged flowers have reddish purple centers, with dark purple dotting on the flare. A late midseason bloomer. Evergreen leaves are deep green.

Rhododendron • Sun-Part shade • 4x4' in 10 yrs • Zone 5, H2

Rhododendron yakushimanum 'Crete'

Magenta buds open in early midseason with pale purple flowers, that fade to white. Evergreen leaves have a tan indumentum.

Rhododendron • Sun-Part shade • 4x6' in 10 years • Zone 6, H2

Rosa 'Meimirrote', Apricot Drift® PP23354

Double, apricot to pink flowers begin blooming in spring and offer a show of color all season. Disease resistant and grown on its own roots. It's a great choice for lining pathways and borders. *Unlicensed propagation prohibited.*

Groundcover Rose • Full sun • 2x3' • Zone 4

Rhododendron yakushimanum 'Ken Janeck'

This compact, mounding shrub develops large trusses of deep pink flowers fading to white mid-season. New foliage emerges silver, maturing to dark green with heavily indumented undersides.

Rhododendron • Part shade-Shade • 3x3' • Zone 6, H2

Rhus aromatica 'Gro-Low'

This groundcover is a dense, low-growing, rambling shrub which spreads by suckers. Trifoliate, medium green leaves turn attractive shades of orange and red in autumn. Leaves and twigs are aromatic when bruised. Tiny flowers produce small clusters of hairy, red berries which may persist into winter.

Fragrant Sumac • Sun-Part sun • 2x8' • Zone 3

Rosa 'Meigalpio', Red Drift® PP17877

An abundance of petite, red, 15-petaled flowers stand out against the dark foliage. These miniature flowers are perfect for accentuating rock walls or borders. As a bonus, this rose has great disease resistance. *Unlicensed propagation prohibited.*

Groundcover Rose • Full sun • 18x30" • Zone 4

Rosa 'Meiswetdom', Sweet Drift® PP21612

Clear-pink, double flowers float in clusters above dark green foliage all summer. Disease resistant and grown on its own roots, a great groundcover rose for massing on hillsides or lining the fronts of borders. *Unlicensed propagation prohibited.*

Groundcover Rose • Full sun • 1.5x3' • Zone 4

SHRUBS & VINES

Salix integra – Syringa meyeri

Salix integra 'Hakuro Nishiki'

An excellent splash of color is achieved with this beautiful willow. New growth has shades of pink, white, and cream, gradually maturing to green with creamy splotches. Prune regularly to maintain size and best color.

Dappled Willow • Full sun • 12-15x12-15' • Zone 4

Sambucus nigra 'Eiffel1', Black Tower PP23633

Columnar form with deep black-green foliage with light pink flowers in summer. *Unlicensed propagation prohibited.*

Elderberry • Part shade • 8x4' • Zone 3

Sambucus nigra 'Jandeboer0021', Golden Tower®

Columnar form with deep black-green foliage with light pink flowers in summer. *Unlicensed propagation prohibited.*

Elderberry • Part shade • 8x4' • Zone 3

Sambucus nigra 'Eva', Black Lace™ PP15575

Intense purple black foliage is finely cut, giving it an effect similar to a laceleaf maple. Creamy pink flowers in late spring contrast nicely with the dark leaves. Flowers are followed by blackish red fall berries, attracting birds. Deer resistant. *Unlicensed propagation prohibited.*

Elderberry • Sun-Part shade • 8x8' • Zone 4

Sarcococca hookeriana var. humilis

This low-growing shrub spreads slowly, creating an evergreen groundcover. Leaves are glossy green with fragrant tiny white flowers that bloom in spring, eventually producing small black fruit.

Sweet box • Part shade-Full shade • 2x4' • Zone 6

Sarcococca hookeriana var. humilis 'Sarsid1', Fragrant Valley™ PP19942

Attractive evergreen foliage makes this a good year-round groundcover. In late winter fragrant flowers are easier to smell than see. Works well in dry shade. *Unlicensed propagation prohibited.*

Sweet box • Part shade-Full shade • 1.5x3' • Zone 5

Sarcococca hookeriana var. humilis 'Sarsid2', Fragrant Mountain™ PP19951

This evergreen is larger than the species, forming a glossy mounding shrub. Masses of small white, early spring flowers are very fragrant. Disease resistant and tolerates dry shade. *Unlicensed propagation prohibited.*

Sweet box • Part shade-Full shade • 3x4' • Zone 6

Sarcococca ruscifolia

A dense, low-growing, broadleaf evergreen shrub featuring small, aromatic flowers in late winter to early spring followed by small scarlet berries. Perfect for shady areas.

Sweet box • Part-Full shade • 4x4' • Zone 7

Spiraea japonica 'Little Princess'

Vibrant pink flattened clusters of blossoms appear above the bright green foliage on this low growing shrub.

Spiraea • Sun-Partsun • 2x4' • Zone 4

Spiraea japonica 'White Gold' PP13609

Flattened clusters of white blossoms are produced above beautiful golden colored foliage on a compact plant. *Unlicensed propagation prohibited.*

Spiraea • Sun-Partsun • 3x3' • Zone 4

Spiraea x bumalda 'Walbuma', Magic Carpet

Low growing, mounding shrub that has bright red new growth. Foliage matures to golden yellow to lime green and is topped in spring with dainty clusters of pink blooms.

Spiraea • Sun-Partsun • 3x3' • Zone 4

Syringa meyeri

A compact, small leaved shrub with showy pink to pale purple flowers. Tolerates urban conditions. Disease resistant foliage.

Lilac • Sun-Part shade • 5-7x5-7' • Zone 3

Spiraea thunbergii 'Ogon', Mellow Yellow ©

This delightfully mounded, multi-stemmed deciduous shrub is an early bloomer with its slender branches covered in clusters of brilliant white flowers. Wispy, willow-like leaves emerge golden yellow in spring, before gradually changing to bright green and finally an orange-yellow in the fall. *Unlicensed propagation prohibited.*

Mellow Yellow® Spiraea • Full Sun • 5x5' in 10 years • Zone 4

SHRUBS & VINES

Syringa patula – Syringa x prestoniae

Syringa patula 'Miss Kim'

Compact, deciduous shrub has dark green leaves that turn burgundy-red in fall. 3" clusters of lavender-purple buds open to fragrant, pale lavender-blue flowers in late spring.

Lilac • Sun-Light shade • 4-9x5-8' • Zone 3

Syringa vulgaris 'Charles Joly'

Fragrant, double magenta fuchsia flower clusters bloom on upright, multi-stems. Deciduous shrub with blue-green, heart-shaped foliage.

Lilac • Magenta • Full sun • 8-10x6' • Zone 3

Syringa vulgaris 'Katherine Havemeyer'

A multi-stemmed deciduous shrub with blue-green, heart-shaped foliage. Blooms fragrant, soft lavender-pink double flower clusters.

Lilac • Full sun • 8-10x6-8' • Zone 3

Syringa vulgaris, Common Lilac

Old-fashioned, classic lilac with very fragrant flowers in shades of lavender to purple. Blue-green leaves. Upright, vase-like habit.

Lilac • Sun-Part sun • 12-15x8-12' • Zone 2

Syringa vulgaris 'Krasavitsa Moskvyy', Beauty of Moscow

Gorgeous white double flowers and pink buds on a medium sized plant. Intensely fragrant flowers.

Lilac • Sun-Part sun • 16x14' • Zone 3

Syringa vulgaris 'Albert F. Holden'

Deep violet flowers have a silver reverse, creating the appearance of light and dark flower clusters. Flowers are fragrant, and attract butterflies. Resistant to powdery mildew.

Lilac • Violet • Full sun • 10x8' • Zone 3

Syringa vulgaris 'Edward J. Gardner'

This lilac has it all. Star-shaped lovely pink flowers are extremely fragrant and considered one of the best semi-double lilacs.

Lilac • Pink • Full sun • 10x8' in 10 years • Zone 3

Syringa vulgaris 'LE Cburg', Burgundy Queen

A well-branched, vigorous shrub with large, fragrant clusters of rich burgundy-red flowers. Perfect for cut flowers.

Lilac • Full sun • 12x8' • Zone 3

Syringa vulgaris 'Monge'

Panicles of fragrant red-purple florets on long stems make good cut flowers. The fragrance attracts butterflies. This lilac seldom suckers. Blue-green foliage provides interest beyond the blooms.

Lilac • Sun-Part sun • 12x12' • Zone 3

Syringa vulgaris 'Nadezhda'

A profuse blooming lilac developing large and very fragrant double lilac-blue flowers. Disease resistant.

Lilac • Full sun • 8x6' in 10 years • Zone 3

Syringa vulgaris 'President Grey'

Large fragrant panicles of double star-shaped, lilac-blue florets. Attracts butterflies.

Lilac • Full sun • 12x8' • Zone 3

Syringa vulgaris 'Sensation'

A very fragrant lilac that has unique purple florets with a white picotee edge. Perfect addition for attracting butterflies.

Lilac • Full sun • 10x12' • Zone 3

Syringa vulgaris 'Yankee Doodle'

Heavily fragrant clusters of deep purple flowers. A well-branched, vigorous shrub.

Lilac • Full sun • 8x5' • Zone 3

Syringa x prestoniae 'Minuet'

Deciduous shrub with panicles of purple buds opening to soft pink flowers. The rounded, compact form and dark green, textured leaves which turn burgundy in fall make this an attractive addition to the landscape.

Lilac • Full sun • 8x6' • Zone 2

Syringa x hyacinthiflora 'Pocahontas'

Early flowering variety with burgundy-purple buds opening to fragrant, lavender blooms. Blooms early May.

Lilac • Sun-Part sun • 10x10' • Zone 2

Syringa x prestoniae 'James MacFarlane'

Large, rosy pink, conical clusters of buds open to clear pink, fragrant flowers. An excellent lilac to extend the season in the garden, since this cultivar blooms 2 to 3 weeks later in the spring than other French hybrids.

Lilac • Sun-Part sun • 8-12x8-12' • Zone 2

SHRUBS & VINES

Vaccinium corymbosum – Weigela

Vaccinium corymbosum 'Razz'

Plump, powder blue berries with reddish undertones taste similar to a raspberry. Medium to large fruit ripens in mid-season with good yields. A hardy Northern Highbush variety.

Blueberry • Full sun • 6x6' • Zone 4

Vaccinium ovatum

Small, leathery, dark green leaves with red new growth that form an upright, shrubby habit. Small white bell flowers turn to edible purplish black fruit.

Evergreen Huckleberry • Sun-Part sun • 4x4' • Zone 7

Vaccinium x 'MNPINK1', Pink Popcorn® PP

A unique pink berried Northern Highbush blueberry. The abundant, flavorful berries ripen mid-season, and the maroon fall foliage color makes this a useful landscape plant. *Unlicensed propagation prohibited.*

Blueberry • Full sun • 5x5' • Zone 3

Vaccinium x 'Nocturne' PP24832

A mid to late season, very cold hardy, rabbiteye cross. Vigorous, with red-orange berries ripening to a dark bluish black. Fruit is sweet and slightly wild tasting. *Unlicensed propagation prohibited.*

Blueberry • Full sun • 5x6' • Zone 3

Viburnum dentatum 'JN Select', Red Feather™

New growth is maroon with green veins, resembling the feathering at the base of an arrow. In late spring, large 2-5" white flower clusters form. If a second plant is present, blue-black berries in the fall will provide a striking contrast against red-purple foliage.

Viburnum • Sun-Part shade • 10x12' • Zone 3

Viburnum davidii

Evergreen shrub with mounding habit has deeply veined, dark green leaves. Clusters of pink buds open to white flowers in spring followed by blue fruit if multiple plants are present.

Viburnum • Sun-Part sun • 4-5x4-6' • Zone 7

Viburnum plicatum 'Newzam', Newport™

Dense, upright, multi-stemmed, deciduous shrub. Creamy white sterile flowers bloom along the branches. Attractive red to burgundy fall color.

Viburnum • Sun-Part sun • 4-6x4-6' • Zone 5

Viburnum plicatum var. tomentosum 'Mariesii'

The branches of this viburnum grow in an interesting layered pattern, and are topped in the spring with flattened clusters of pretty white blossoms. Fall color is also a very pleasing reddish purple.

Viburnum • Sun-Part sun • 12x15' • Zone 5

Viburnum plicatum var. tomentosum 'Summer Snowflake'

Compact, deciduous shrub has layered branching. Clusters of white flowers bloom along the tops of the branches from April into November. Rich green leaves turn burgundy-red in fall. Sets very little fruit.

Viburnum • Sun-Part sun • 4-6x4-6' • Zone 5

Viburnum tinus 'Spirit'

This evergreen, compact plant was originally developed for cut flowers. The dark green foliage and red stems create a nice background for the fragrant, striking white flower clusters that begin as deep pink buds. After flowering, metallic, purple-blue berries appear.

Viburnum • Sun-Part shade • 7x7' • Zone 7

Viburnum tinus 'Spring Bouquet'

A small, compact, upright evergreen shrub has dark green foliage. Fragrant, pink-white flowers in spring are followed by dark blue-black fruit.

Viburnum • Sun-Part sun • 8x8' • Zone 7

Vinca minor 'Bowles'

This ground cover performs well in shade with violet-blue flowers against glossy, dark green leaves.

Periwinkle • Part sun-Shade • 3-4x3-4' • Zone 4

Weigela florida 'Alexandra'

Reddish pink, funnel-shaped flowers cover this deciduous shrub in spring. Foliage is purple, extending the seasonal interest.

Weigela • Full sun • 5x5' • Zone 4

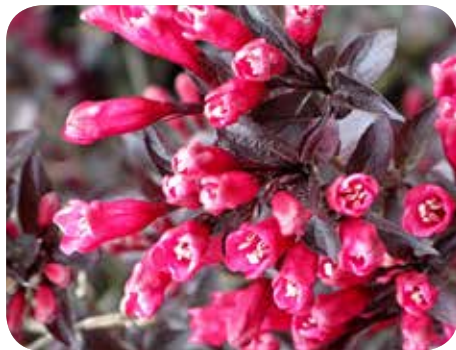

Weigela florida 'Bokratwo', Merlot Pink PP21763

Vivid pink flowers on a compact deciduous shrub with dark silver-bronze foliage. *Unlicensed propagation prohibited.*

Weigela • Full sun • 3-4x3-4' • Zone 5

SHRUBS & VINES

Weigela florida – Wisteria macrostachya

Weigela florida 'Bokrafive', Merlot Rose PP21725

Deep rose colored flowers and bronze foliage on a very compact deciduous shrub. *Unlicensed propagation prohibited.*

Weigela • Full sun • 3-4x3-4' • Zone 5

Weigela florida 'Lemiczam', Lemon Ice™

An exciting addition to any garden, lemon yellow, trumpet-shaped flowers bloom in late spring, and continue to bloom lightly through fall. New growth has red stems and bright green leaves.

Weigela • Full sun • 6x6' • Zone 5

Weigela florida 'Redtwizam', Red Tweedie Bird™

Red, trumpet-shaped flowers cover long arching branches in spring. Great for attracting hummingbirds and butterflies. Foliage is medium green. *Unlicensed propagation prohibited.*

Weigela • Full sun • 3x4' • Zone 4

Wisteria floribunda 'Hon-beni'

This slow growing wisteria produces soft, pink racemes, that are tinged with lavender and lightly scented. Bronze spring growth becomes emerald green in summer, and lemon yellow in Fall.

Wisteria • Sun-Part sun • 25' • Zone 4

Wisteria frutescens 'Amethyst Falls'

This compact, deciduous, wisteria blooms dependably at a younger age, and is non-invasive. Can be pruned to grow in large containers. Produces lightly fragrant, 4-6" deep blue-purple racemes in late spring, and again in summer.

Wisteria • Sun-Part sun • 20' • Zone 5

Wisteria macrostachya 'Aunt Dee'

Lilac-blue flowers on long 8-10" flower clusters. This wisteria is a more restrained vine than Asian wisterias.

Wisteria • Full sun • 15-20' • Zone 4

Wisteria macrostachya 'Blue Moon'

The hardiest of Wisteria! Dependably blooms up to three times in a growing season once established, producing beautiful, foot-long racemes of fragrant, pea-like lavender-blue flowers. Cloaks shade arbors and structures. Ideal for arching over gateways and entries or along the top of a wall.

Wisteria • Sun-Part sun • 25' • Zone 3

Eshraghi CONIFERS
NURSERIES, LLC

Picea abies 'Pendula'

CONIFERS

Abies concolor – *Cephalotaxus harringtonia*

***Abies concolor* 'Blue Cloak'**

This conifer has striking light blue, evergreen foliage that grows along slightly weeping branches. The pyramidal form makes a great specimen in areas with restricted space.

White Fir • Full sun • 8x4' in 10 years • Zone 4

***Abies koreana* 'Horstmann's Silberlocke'**

This unusual yet handsome medium sized conical tree has irregular branching and blue-green needles curling up to reveal bright silver undersides. Likes lower elevations and tolerates heat and drought.

Korean Fir • Sun-Part sun • 20-30x30' in 10 years • Zone 5

***Abies koreana* 'Kohouts Icebreaker'**

A witch's broom of 'Horstmann's Silberlocke', 'Kohouts Icebreaker' will maintain a small stature in the garden. Radial branching with curled needles that expose their white undersides are its signature feature. Over time it may develop a leader and mature into a squat tree.

Korean Fir • Sun-Part shade • 6x3' • Zone 5

***Cedrus atlantica* 'Fastigiata'**

This upright plant has a narrower profile than the species. The evergreen foliage has a beautiful green-blue color, adding to this plant's beauty.

Atlas Cedar • Full sun • 30-40x10-15' • Zone 6

***Cedrus atlantica* 'Glauca'**

This conifer has silvery blue needles in whorls. Upright barrel-shaped cones are 2-3" tall.

Blue Atlas Cedar • Sun-Part sun • 40-60x30-40' • Zone 6

***Cedrus atlantica* 'Glauca Pendula'**

Weeping evergreen conifer with blue-green needles on long, pendulous branches. A unique specimen for the landscape. Size and form depend on training: cascade over low walls, stake to form a central leader, train along strong supports.

Blue Atlas Cedar • Sun-Part sun • 10x15' • Zone 6

Abies koreana 'Silberperle'

Deep green needles have silver-white undersides and white, pearl-like winter buds. Its slow, dense growth initially forms a flattened globe, eventually becoming conical in shape. Protect from hot sun.

Korean Fir • Sun-Part shade • 2x1.5' in 10 years • Zone 4

Cedrus atlantica 'Horstmann'

Short, silver-blue needles and stiff, irregular branching make this intermediate sized evergreen tree stand-out in the garden. Drought tolerant once established.

Blue Atlas Cedar • Full sun • 12x8' • Zone 5

Cedrus deodara 'Cream Puff'

Semi-dwarf pyramidal evergreen with outstanding creamy white foliage tips. One of the best selections for avoiding foliage burn.

Himalayan Cedar • Full sun • 6x4' in 10 years • Zone 6

Cedrus deodara 'Divinely Blue'

Dwarf, dense, compact shrub with mounding habit. Pale gray-green new growth darkens to blue-green with age.

Himalayan Cedar • Full sun • 6x3' • Zone 7

Cedrus deodara 'Feelin' Blue'

One of the lowest dwarf forms of blue cedar. A spreading evergreen conifer that rarely develops a leader. Needles are blue-green and soft textured which contrasts easily with other low growing plants.

Himalayan Cedar • Full sun • 1x6' • Zone 6

Cedrus deodara 'Prostrate Beauty'

Spreading conifer with feathery, light blue-green foliage that matures darker blue-green.

Himalayan Cedar • Full sun • 5x10' • Zone 7

Cephalotaxus harringtonia 'Duke Gardens'

A shade loving evergreen that has deep green, needle-like foliage which grows on a dense and bushy plant. Excellent for low hedges or mixed plantings. Deer resistant.

Japanese Plum Yew • Sun-Part shade • 4-6x4-6' • Zone 6

CONIFERS

Cephalotaxus harringtonia – Chamaecyparis obtusa

Cephalotaxus harringtonia 'Fastigiata'

A columnar habit makes this evergreen a wonderful vertical accent in the garden. Two inch long dark green needles are arranged in spirals on the stem. Heat tolerant. Deer resistant.

Japanese Plum Yew • Part shade-Shade • 10x5' • Zone 6

Cephalotaxus harringtonia 'Korean Gold'

A slow growing fastigiata evergreen that has needle-like foliage with a lovely golden hue that is sure to make a statement in the landscape. Color holds well throughout the summer and turns a deep green during the winter months. Deer resistant.

Japanese Plum Yew • Part shade-Shade • 3-5x1-2' in 10 years • Zone 6

Chamaecyparis lawsoniana 'Wissel's Saguaro'

An interesting and unique specimen with blue-green foliage on branches that arch out, reminiscent of the shape of a Saguaro Cactus. Looks great as a specimen or planted in mixed conifer beds.

Port Orford Cedar • Full sun • 8x3' in 10 years • Zone 5

Chamaecyparis nootkatensis 'Glauca Pendula'

Dense, deep blue-green foliage on graceful weeping branches. Likes a moderately humid atmosphere.

Alaskan Cedar • Full sun • 30x20' • Zone 4

Chamaecyparis nootkatensis 'Green Arrow'

Very narrow habit with deep green, pendulous branches. A clean and graceful tree. Likes a moderately humid atmosphere.

Alaskan Cedar • Full sun • 30x3-4' • Zone 4

Chamaecyparis nootkatensis 'Pendula'

Drooping branchlets hang from spreading, upward curving branches with gray-green foliage. Likes a moderately humid atmosphere.

Alaskan Cedar • Full sun • 45x30-40' • Zone 4

Chamaecyparis obtusa 'Confucius'

Bright lemon-yellow foliage on the outside, deeper yellow, gold, and emerald green on the interior. Broad conical form with graceful branching.

Hinoki Falsecypress • Part shade • 10x8' • Zone 5

Chamaecyparis obtusa 'Fernspray Gold'

Coniferous evergreen shrub with bright yellow foliage in fern-like sprays. Protect from strong winds. Likes a moderately humid atmosphere.

Hinoki Falsecypress • Sun-Part sun • 12x8' • Zone 4

Chamaecyparis obtusa 'Gracilis'

Narrow, upright, pyramidal evergreen with graceful horizontal branching. Reddish new growth matures to deep green. Foliage takes on a bronzy color in the fall.

Hinoki Falsecypress • Full sun • 15x6' • Zone 4

Chamaecyparis obtusa 'Kamaeni hiba'

A dwarf cultivar with a rounded habit and golden twisted threads of foliage that become creamy ochre-green on the interior. Likes a moderately humid atmosphere.

Hinoki Falsecypress • Full sun • 2x2' • Zone 5

Chamaecyparis obtusa 'Kosteri'

Loosely globe-shaped conifer that will take on a more pyramidal shape with maturity. Foliage is produced in flattened sprays that are medium green in color with a lacy texture. A great plant for containers as well as the landscape.

Hinoki Falsecypress • Full sun • 4x4' • Zone 5

Chamaecyparis obtusa 'Nana'

Slow growing, mounding form with dark green foliage. Bronze tinge on winter foliage.

Hinoki Falsecypress • Full sun • 3x3' • Zone 4

Chamaecyparis obtusa 'Nana Lutea'

A very vivid form of dwarf Hinoki with golden yellow foliage. Likes a moderately humid atmosphere.

Hinoki Falsecypress • Full sun • 3x3' • Zone 5

Chamaecyparis obtusa 'Tempelhof'

Evergreen, broad, dark green form of Hinoki Falsecypress. Red stems and bronze winter foliage color. Likes a moderately humid atmosphere.

Hinoki Falsecypress • Full sun • 4x3' in 10 years • Zone 5

CONIFERS

Chamaecyparis pisifera – *Juniperus chinensis*

Chamaecyparis pisifera 'Boulevard'

Beautiful evergreen has a narrow pyramidal form. Feather-like foliage is silvery blue-green in summer and turns grayish blue in winter. Excellent as a topiary or specimen. Protect from strong wind.

Falsecypress • Sun-Part sun • 5-12x2-4' • Zone 4

Chamaecyparis pisifera 'Cream Ball'

Globed-shaped dwarf with splashes of white on green foliage. Juvenile foliage, like other Sawara falsecypress, is thread-like.

Falsecypress • Sun-Part shade • 5x5' • Zone 4

Chamaecyparis pisifera 'Sungold'

Golden yellow foliage on weeping thread-like branches, gives a yellow mop-like appearance. Compact, cone shaped, evergreen shrub. Good as small hedge, accent, and in borders. Best color in full sun.

Falsecypress • Sun-Part sun • 12x3-5' in 10 years • Zone 4

Cryptomeria japonica 'Black Dragon'

Light green new foliage deepens to dark green. Winter color is almost black. Grows vigorously to size, then slows and fills in, to an irregular pyramidal form.

Japanese Cedar • Full sun • 10x10' • Zone 6

Cryptomeria japonica 'Spiralis', Granny's Ringlets

The light green needles of this semi-dwarf cultivar wrap around the branches in a tight spiral. This feature gives the appearance of ringlets, hence the name 'Granny's Ringlets'. A unique specimen for the garden or container.

Japanese Cedar • Sun-Part shade • 30x15' • Zone 6

Cupressocyparis leylandii 'Reco', Shorty PP19618

Dwarf, compact shrub has bright evergreen foliage. Drought and heat tolerant. Deer resistant. *Unlicensed propagation prohibited.*

Leyland Cypress • Full sun • 7x4' • Zone 6

Cupressocyparis leylandii 'Goldfern' PPAF

This evergreen conifer has fluffy foliage with a rich gold color. Loves heat and humidity. Deer resistant. *Unlicensed propagation prohibited.*

Leyland Cypress • Full sun • 35x12' • Zone 6

Juniperus chinensis 'Blue Point'
Multi-stemmed, evergreen shrub with a distinctive and refined pyramidal form. Foliage is an attractive blue-green.

Juniper • Full sun • 35x12' • Zone 6

Juniperus chinensis 'Daub's Frosted'

Low growing spreader with bright lemon-yellow highlights over emerald green foliage. Needs afternoon shade in hot summer areas.

Juniper • Sun-Part shade • 2x3-5' • Zone 4

Juniperus chinensis 'Gold Lace'

Vivid, yellow-tipped foliage visually softens the landscape and is brightest in summer. Good for rock gardens and erosion control.

Juniper • Full sun • 4x6' • Zone 4

Juniperus chinensis 'Golden Glow'

Arching branches with deep golden foliage add an elegant look to the landscape. The golden color will not fade in the hot sun like many other yellow juniper cultivars.

Juniper • Full sun • 2-3x4' • Zone 4

Juniperus chinensis 'Kaizuka', Hollywood Juniper

A narrow cone shape when young, opening up as the plant ages. Delicately twisted, upright branches emerge containing scale-like bright green foliage.

Juniper • Full Sun • 15x10' in 10 years • Zone 5

Juniperus chinensis 'Spartan'

Evergreen, pyramidal tree with rich green foliage. Good as a windbreak or screen.

Juniper • Full sun • 15-20x6' • Zone 4

CONIFERS

Juniperus communis – Larix decidua

Juniperus communis 'Compressa', Pencil Point

Narrow, upright columnar conifer has finely textured blue-green foliage. Great plant as an accent or a specimen.

Juniper • Full sun • 10x2' • Zone 4

Juniperus communis 'Gold Cone'

Upright, narrow, evergreen shrub. Golden yellow foliage fades to bluish green in winter.

Juniper • Full sun • 5x1-2' • Zone 4

Juniperus conferta 'Blue Pacific'

Low, spreading evergreen groundcover. Finely textured blue-green foliage softens the landscape. Berries provide added appeal.

Juniper • Full sun • 1x5-6' • Zone 5

Juniperus horizontalis 'Blue Chip'

A low mounding, evergreen ground cover. Silver-blue foliage. Grows in most soils, but requires afternoon shade in hot summer areas.

Juniper • Sun-Part shade • 8-10"x8' • Zone 3

Juniperus horizontalis 'Lime Glow'

Bright lime-green to lemon-yellow foliage on this upright, mounded to V-shaped conifer. Bronze to gold winter color.

Juniper • Full sun • 1.5x3' • Zone 3

Juniperus horizontalis 'Wiltonii'

Dense, very prostrate evergreen shrub has rich, silvery blue foliage that acquires lavender tints in winter. Produces tiny, silvery blue cones. Heat and cold tolerant. Good as ground cover or for erosion control. Afternoon shade in hot summer areas.

Juniper • Sun-Part shade • 4-6"x6-8' • Zone 3

Juniperus procumbens 'Nana'

Compact, mat-forming evergreen shrub has dense blue-green foliage. Good in border, massing, ground cover, or for erosion control. This plant can be staked to form an upright shrub. Afternoon shade in hot summer areas.

Juniper • Sun-Part shade • 8-12"x6-8' • Zone 5

Juniperus scopulorum 'Blue Arrow'

This columnar evergreen has blue-green needles and a very narrow habit, perfect for small spaces. Drought tolerant.

Juniper • Full sun • 15x2' • Zone 4

Juniperus scopulorum 'Moonglow'

A very columnar tree with upright, bright bluish-green, needle-like foliage. Good as a specimen or for privacy screens. Tolerates coastal exposures.

Juniper • Full sun • 20x8' • Zone 3

Juniperus scopulorum 'Skyrocket'

A very narrow, upright form containing silver-blue needle-like foliage. Popular for use as a specimen or privacy screen.

Juniper • Full sun • 15x3' • Zone 3

Juniperus squamata 'Blue Star'

Rounded evergreen shrub has steel-blue foliage that appears as starbursts on the branch ends. Good in rock gardens, or contrast plant in mixed borders.

Juniper • Full sun • 2-3x3-4' • Zone 5

Juniperus virginiana 'Taylor'

Excellent as a screen or windbreak, this evergreen forms a narrow column. Blue-green foliage becomes bronzy in winter, and purplish blue cones attract birds.

Juniper • Full sun • 20x4' • Zone 3

Larix decidua 'Pendula'

Weeping form of this deciduous conifer. Tufts of light green needles hang on drooping branches, turning golden yellow in fall. Tolerates moist soil conditions. Size depends on training.

European Larch • Full sun • 10-12x5-6' • Zone 3

CONIFERS

Larix kaempferi – *Picea glauca*

Larix kaempferi 'Blue Dwarf'

This slow growing dwarf conifer forms an irregular globe. Deciduous blue-green foliage turns bright golden yellow in fall. Copper-colored bark provides winter interest.

Japanese Larch • Full sun • 5x5' • Zone 4

Microbiota decussata, Siberian Cypress

Low growing conifer that can spread very wide. Foliage is scale-like but feathery on branches that create arches with drooping tips. It has a bright green color during the summer but turns a bronze-purple in fall. Easily grown as a groundcover.

Siberian Cypress • Full Sun-Part shade • 1x10' • Zone 3

Microbiota decussata 'Condavis', Fuzzball™ PP20012

The dense, shallowly vase-shaped habit, and attractive, fuzzy, bright green foliage makes this an exceptional addition to rock gardens or borders. Color turns purplish-brown in winter. Cold hardy. *Unlicensed propagation prohibited.*

Siberian Cypress • Sun-Part sun • 2x3' • Zone 2

Picea abies 'Cupressina'

Dense, narrow, evergreen tree with stiff, dark green needles, arranged singularly around upright branches.

Norway Spruce • Sun-Part sun • 30x10' • Zone 4

Picea abies 'Gold Drift'

This moderate growing, weeping conifer has yellow to green needles. Protect young plants from strong sun to prevent foliage burn. Use as a groundcover or stake into a small weeping tree. Height depends on staking.

Norway Spruce • Sun-Part sun • 6x5' in 10 years • Zone 3

Picea abies 'Little Gem'

Compact, flat-topped, dwarf, evergreen shrub with dark green foliage.

Norway Spruce • Sun-Light shade • 3x5-6' • Zone 3

Picea abies 'Nidiformis', Bird's Nest Spruce

Best known as "Bird's Nest Spruce", this dwarf evergreen conifer grows into a dense, wide-spreading mound. The center has a slight depression as it does not develop a leader.

Norway Spruce • Sun-Light shade • 2x3' • Zone 3

Picea abies 'Paul's Select'

A slow growing, blue-needled Norway spruce that has a dense pyramidal habit. Makes a good accent plant.

Norway Spruce • Sun-Part shade • 25x5' • Zone 3

Picea abies 'Pendula'

Evergreen with rich green needles on trailing branches and 4" long hanging cones. Good accent plant. Size depends on training.

Norway Spruce • Sun-Part sun • 6x10' in 10 years • Zone 3

Picea glauca 'Blue Teardrop'

A dense, dwarf conifer with short, tightly set, blue-green needles. The tear drop shape makes it an attractive accent plant.

White Spruce • Full sun • 4x2' • Zone 2

Picea glauca 'Conica', Dwarf Alberta Spruce

Dense, pyramidal evergreen shrub has soft, bright green new growth that matures darker. Good in rock gardens, patio tubs, foundation planting, or as a specimen.

White Spruce • Sun-Light shade • 8x5' • Zone 3

Picea glauca 'Daisy's White'

A dwarf Alberta spruce which features stunning blond shoots and needles in the springtime, adding nice color and texture to the landscape. Needles mature to green in summer.

White Spruce • Sun-Part shade • 2x1' in 10 years • Zone 3

Picea glauca 'Eshraghi1', Poco Verde

Dwarf, narrowly pyramidal, evergreen conifer. New growth is light yellow-green, creating a contrasting polka dot effect against the dense darker green foliage.

White Spruce • Full Sun • 5x2' • Zone 3

CONIFERS

Picea glauca – *Picea pungens*

Picea glauca 'Pendula'

An outstanding specimen, whose blue-green needled branches weep from a tall central leader, creating a slender spire. Ideal for small spaces.

White Spruce • Full sun • 20-30x6' • Zone 3

Picea mariana 'Nana'

This slow-growing evergreen forms a neat mound without the need for any pruning. The foliage has a nice bluish-gray color.

Black Spruce • Sun-Light shade • 3x5' • Zone 3

Picea omorika 'Pendula Brunns'

A very unique looking conifer, with a main leader that seems to climb toward the sky, while the side branches are strongly pendulous and weep to the ground. The foliage emerges light green, turning an attractive blue-green with silver undersides. Makes a great focal point in the landscape.

Serbian Spruce • Full sun • 30x8' • Zone 4

Picea orientalis 'Aureospicata'

This slow growing, pyramidal spruce has short, dark green needles, and boasts vivid chartreuse new growth in spring, creating a dramatic effect. These beautiful contrasting colors remain until mid-summer.

Caucasian Spruce • Full sun • 30x24' • Zone 4

Picea orientalis 'Barnes'

This evergreen shrub has dark green needles year-round. It's a slow grower, forming a slightly flattened, rounded shape. If a leader forms, it's best to prune it off.

Caucasian Spruce • Full Sun • 6x6' • Zone 4

Picea orientalis 'Skylands'

Upright spruce with spiky needles that emerge bright yellow in spring and turn gold. Older needle growth is dark green. Protect from late afternoon sun.

Caucasian Spruce • Full sun-Part shade • 25-30x8-10' • Zone 4

Picea orientalis 'Gowdy'

This slow-growing, narrow, pyramidal spruce is a good choice for smaller landscapes. Its short, dark green, fine-textured needles are soft and the red-purple cones provide a nice contrast in spring. Tolerates heat and humidity well.

Caucasian Spruce • Full sun • 10x6' • Zone 4

Picea orientalis 'Nutans'

This upright evergreen is called a nodding Caucasian spruce because of pendulous branch tips. Irregular branching and short, dark green needles give it a very sculptural form.

Caucasian Spruce • Sun-Part shade • 8x3' in 10 years • Zone 4

Picea pungens 'Baby Blue'®

An outstanding Colorado blue spruce with a strong blue color and dense growth habit. A nice conical shape without shearing, and slightly more slender than the species.

Colorado Spruce • Sun-Part sun • 45x15' • Zone 3

Picea pungens 'Bakeri'

Beautiful blue needles adorn this broadly conical evergreen tree.

Colorado Spruce • Full sun • 20x12' • Zone 3

Picea pungens 'Fat Albert'

Dense, upright, very broad, pyramidal evergreen with blue needles. Good as windbreak, screen, and as landscape accent.

Colorado Spruce • Full sun • 10-15x10-12' • Zone 3

Picea pungens 'Gebelle's Golden Spring'

Brilliant yellow new growth in spring fades to blue-green, creating an outstanding color contrast. Dwarf, slow growing conifer.

Colorado Spruce • Sun-Part shade • 6x3' • Zone 3

Picea pungens 'Glauca Slenderina'® Pendula'

Introduced by Eshraghi Nursery. A weeping form of Colorado Blue Spruce, which is more narrow and blue than other varieties.

Colorado Spruce • Full sun • 12' in 20 years • Zone 3

Picea pungens 'Glauca Fastigiata'

This narrow, upright tree with stiff bright blue needles adds vertical interest to the landscape.

Colorado Spruce • Full sun • 30x10' • Zone 3

Picea pungens 'Glauca Globosa'

Dense, compact globe-shaped evergreen shrub has bright blue stiff needles. An excellent selection for an accent or specimen.

Colorado Spruce • Full sun • 5x6' • Zone 3

Picea pungens 'Hoopsii'

Pyramidal, evergreen tree with long, thick, silvery blue needles on spreading branches. Produces large magenta cones in spring.

Colorado Spruce • Full sun • 30-50x10-20' • Zone 3

CONIFERS

Picea pungens – *Pinus nigra*

***Picea pungens* 'Hockersmith', Linda**

Discovered at Eshraghi Nursery, this evergreen has beautiful blue needles, that are deeper blue, thicker, and longer than 'Glauca Globosa'.

Colorado Spruce • Full sun • 3x4' • Zone 3

***Pinus cembra* 'Glauca', Swiss Stone Pine**

A fantastic disease resistant cultivar that has lovely silvery blue needles. It is quite slow growing with a broadly pyramidal shape, becoming somewhat rounded with age. A very attractive conifer that adds great color to the landscape.

Swiss Stone Pine • Full sun • 15x10' • Zone 4

***Picea pungens* 'Waldbrunn'**

Short horizontal branches are covered with unusual blue-gray needles. Slow growing, pyramidal form of Colorado Blue Spruce. Maintains a deep blue color.

Colorado Spruce • Full sun • 3-4x2-3' • Zone 3

***Pinus banksiana* 'Uncle Fogy'**

This pendulous form of Jack Pine produces a large unique specimen in short order. Curving, trailing branches create an interesting, woody groundcover, with good cold tolerance. Can be trained to a variety of forms.

Jack Pine • Full sun • 2x15' in 10 years • Zone 2

***Pinus contorta* 'Chief Joseph'**

This dwarf conifer with its bright yellow winter color is on every collector's list. Slowly growing 3-6" per year, it forms a broad upright to oval shape. New growth in spring is a medium green maintaining its color throughout summer until frost initiates the winter transformation.

Lodgepole Pine • Sun-Part shade • 6x4' • Zone 5

***Pinus banksiana* 'Schoodic'**

This Jack Pine variant forms a prostrate, ground hugging mound with contorted branches and fine textured needles. 'Schoodic' would make a fine accent for a rock wall and is very cold hardy.

Jack Pine • Full sun • 1x4' in 10 years • Zone 2

***Pinus flexilis* 'Domingo'**

Beautiful long needles have a soft, bluish green color on a broadly pyramidal tree. Good as a specimen or for hedging.

Limber Pine • Full sun • 25x15' • Zone 4

Pinus flexilis 'Vanderwolf's Pyramid'

Long, twisted, blue-green needles on a pyramidal tree makes this an interesting landscape addition.

Limber Pine • Sun-Part sun • 20-25x10-15' • Zone 4

Pinus mugo var. pumilio

Evergreen shrub has short, dark green needles. New growth appears as narrow candles. Produces small dark brown cones.

Mugo Pine • Sun-Part sun • 3-4x6' • Zone 3

Pinus mugo 'Carstens'

A dense, compact mugo pine with medium green foliage in the summer that turns a rich gold during winter. Late season push of short needles creates a crown effect on the end of each terminal branch.

Mugo Pine • Sun-Part sun • 1x2' • Zone 2

Pinus mugo 'Sherwood Compact'

A super choice for the front of the border, or for edging a walkway. Also works well as a bonsai specimen. Compact and well branched, with small deep green needles that create a bottle-brush appearance.

Mugo Pine • Full sun • 1.5x2' in 10 years • Zone 2

Pinus nigra 'Arnold Sentinel'

An upright columnar evergreen with beautiful blue-green needles that hold their color through the winter. Its unswept branches are compact and dense.

Austrian Pine • Full sun • 25x7' • Zone 4

Pinus nigra 'Green Tower'

If you want an ideal specimen for a smaller space, this is it. A strongly fastigate habit is softened by lush, long, dark green needles. The sturdy branching withstands snow and ice well.

Austrian Pine • Full sun • 8x2' in 10 years • Zone 4

CONIFERS

Pinus nigra – *Pinus sylvestris*

***Pinus nigra* 'Obelisk'**

'Obelisk' is a slow-growing, upright pine, suitable for smaller spaces or as a vertical accent.

Austrian Pine • Full sun • 6x1' in 10 years • Zone 4

***Pinus nigra* 'Oregon Green'**

This relatively slow growing upright tree has very fine-textured, green needles and a distinctive pyramidal form. Bright white candles stand out against the green needles in the spring. Excellent as an accent or can be massed to form a tall screen.

Austrian Pine • Full sun • 10-12x8-10' • Zone 4

***Pinus parviflora* 'Glauca'**

Evergreen tree with dense, conical form when young then wide spreading as it matures. Green needles with blue undersides are twisted and coarse. Freely produces red-brown, 1-4" long cones.

Japanese White Pine • Full sun • 8-12' in 10 years • Zone 4

***Pinus parviflora* 'Cleary'**

Bright silver-blue needles make this evergreen stand out among other conifers. Its slow-growing, compact form fits into any landscape.

Japanese White Pine • Full sun • 15x6' • Zone 4

***Pinus strobus* 'Angel Falls'**

Left unstaked, this weeping conifer forms a dense mound. When staked, its weeping branches create a dense, softly irregular column, with a weeping top. The habit is more narrow than *Pinus* s. 'Pendula'.

White Pine • Full sun • 10x3' in 10 years • Zone 3

***Pinus x schwerinii* 'Wiethorst'**

This dwarf, pyramidal Pine has delicate, light green needles with silvery undersides, giving it a soft appearance. Produces numerous seed cones at a young age.

Hybrid Pine • Sun-Part sun • 5x3' in 10 years • Zone 3

***Pinus strobus* 'Blue Shag'**

Compact, dwarf, globe-shaped evergreen shrub with short, soft, blue-green needles. Does not produce cones. Good as specimen.

White Pine • Sun-Part sun • 2-4x2-4' • Zone 3

Pinus strobus 'Coney Island'

This unique, dwarf pine is dense with long 5" blue-green needles softening the look of this rounded conifer. Bears numerous gray to blue cones, even when young.

White Pine • Sun-Part sun • 5x3' • Zone 3

Pinus strobus 'Green Twist'

This dwarf White Pine with twisted, curly green needles will add texture and interest to any garden. This compact grower originated as a witch's broom.

White Pine • Sun-Part sun • 5x3' in 10 years • Zone 4

Pinus strobus 'Fastigiata'

An evergreen with an upright growth habit that makes it much more suitable for smaller spaces than other White Pines. Soft blue-green needles look great when mixed with other conifers.

White Pine • Sun-Part sun • 40x10' • Zone 3

Pinus strobus 'Louie'

Globe shaped when young, this conifer eventually becomes loosely pyramidal. Long, thin needles emerge golden, fading to a soft yellow-green during winter.

White Pine • Full sun • 20x15' • Zone 3

Pinus strobus 'Horsford Dwarf'

Dwarf, compact, evergreen shrub with rounded habit has short, lime-green needles. Does not produce cones.

White Pine • Sun-Part sun • 2-4x2-4' • Zone 3

Pinus strobus 'Sea Urchin'

A very tight, slow growing dwarf pine. Globe shaped with a flattened top, the silvery blue-green needles stand out in the landscape.

White Pine • Sun-Part shade • 2x2' • Zone 3

Pinus sylvestris 'Green Penguin'

This dwarf evergreen is a dense, rich green cone of needles producing curious "flowers" of juvenile foliage in the late summer each year. This cultivar is taller than it is wide and takes on a penguin-shape as it matures. Extremely cold hardy.

Scots Pine • Full sun • 4x2' in 10 years • Zone 3

CONIFERS

Pinus sylvestris – *Thuja occidentalis*

***Pinus thunbergii* 'Kotobuki'**

Short, dark green needles, with branches that grow upward and form a tight and narrow habit.

Japanese Black Pine • Full sun • 7-8x3' • Zone 5

***Pinus thunbergii* 'Thunderhead'**

Dwarf evergreen shrub with glossy, dark green needles and large white candles. Forms a broad, dense pyramid.

Japanese Black Pine • Full sun • 10x10' • Zone 5

***Pinus sylvestris* 'Watereri'**

Blue-green needles contrast nicely against exfoliating cinnamon-brown bark. Pyramidal when young, and irregular to dome-shaped when mature.

Scots Pine • Sun-Part sun • 10-12x8-10' • Zone 3

Sciadopitys verticillata

This slow growing tree is used for its unusual texture and growth habit. On young plants the branches stick straight out from the single, straight trunk but become more pendulous with age. The tree grows in a tight pyramid and green needles radiate out creating an effect much like the ribs on an umbrella

Japanese Umbrella Pine • Full sun • 30x15' • Zone 5

***Taxus baccata* 'Fastigiata', Irish Yew**

The deep green, soft needles on this columnar growing evergreen add a nice touch of both color and texture to the landscape. Perfect for vertical accents due to its upright growth habit.

Yew • Sun-Part shade • 20x5' in 10 years • Zone 6

***Taxus baccata* 'Fastigiata Aurea'**

A columnar, slow growing evergreen. New needles are golden yellow, developing a green center that becomes more prominent with age. Displays red berries in fall. Beautiful accent plant when grown next to contrasting colors.

Yew • Sun-shade • 25x8' • Zone 6

***Taxus baccata* 'Repandens'**

A versatile plant, this wide spreading evergreen shrub can be used as a tall groundcover, low hedge or specimen, and takes pruning well. Major branches are horizontal with pendulous tips, bearing dark green needles.

Yew • Sun-Part shade • 8x15' • Zone 5

Taxus cuspidata 'Nana Aurescens'

The foliage on this low, spreading evergreen starts bright golden yellow, gradually changing to dark green. Looks good planted in masses as a ground cover, or used in mixed borders. Non-fruit bearing male cultivar.

Yew • Part shade • 3x6' • Zone 4

Taxus x media 'Densiformis'

Low growing, dense, spreading evergreen shrub with dark green needle-like foliage. May have scarlet winter berries.

Yew • Full sun • 3-4x4-6' • Zone 4

Taxus x media 'H. M. Eddie'

This narrow, upright yew takes well to pruning and is perfect for small spaces or as hedge material. Foliage emerges bright green, fading to a darker blue green. It is a male selection that does not produce fruit, keeping a relatively tidy space.

Yew • Sun-Shadow • 20x5' • Zone 4

Taxus x media 'Hicksii'

Columnar evergreen shrub has glossy, dark green needle-like foliage with pale green reverse. Red winter berries. Very tolerant of urban conditions.

Yew • Full sun • 12-20x12' • Zone 4

Thuja occidentalis 'Anniek', Sienna Sunset

This semi-dwarf Arborvitae will maintain a compact globe-shape. Branching is very short and covered with dense, congested foliage. Soft and green at the core the foliage has yellow tips. In winter it transforms to a bronze-orange. *Unlicensed propagation prohibited.*

Arborvitae • Sun-Part sun • 3x3' • Zone 3

Thuja occidentalis 'Bobazam', Mr. Bowling Ball®

This unusual arborvitae grows in a compact globe with a soft, feathery texture. Light green juvenile foliage eventually turns sage green.

Arborvitae • Sun-Part shade • 3x3' • Zone 3

Thuja occidentalis 'Congabe', Fire Chief™ PP19009'

Selected for its bright orange to flame red foliage, this sport of 'Rheingold' lights up the landscape year-round. This globe-shaped shrub is a slow grower, which requires little to no pruning, making it perfect for low-maintenance mass plantings or as a rock garden specimen. *Unlicensed propagation prohibited.*

Arborvitae • Full sun • 4x4' • Zone 5

Thuja occidentalis 'Degroot's Spire'

Medium green foliage on narrow, columnar evergreen shrub, has purple tint in winter. Protect from strong winds.

Arborvitae • Full sun • 20x4-5' • Zone 3

Thuja occidentalis 'Hetz Midget'

A slow growing compact globe-shaped shrub with rich bluish-green foliage that bronzes in winter.

Arborvitae • Sun-Part sun • 5x5' • Zone 3

CONIFERS

Thuja occidentalis – *Thujopsis dolabrata*

***Thuja occidentalis* 'Janed Gold', Highlights™ PP21967**

Upright, pyramidal evergreen with yellow-gold foliage. Holds bright color throughout the year. *Unlicensed propagation prohibited.*

Arborvitae • Sun-Part shade • 8x4' in 10 years • Zone 3

***Thuja occidentalis* 'Smaragd'**

Compact, columnar evergreen shrub has feathery, rich green foliage that holds its color all year. Needs a moist atmosphere and some shade in hot summer areas.

Arborvitae • Sun-Part shade • 10-15x3-5' • Zone 2

***Thuja occidentalis* 'Tom Thumb'**

This semi-dwarf *Arborvitae* will form a neat globe shaped mound. Dense foliage is a lovely emerald green color that holds well throughout the year with little bronzing. Makes a fine low growing hedge, or mixes well in shrub borders.

Arborvitae • Sun-Part sun • 3-4' • Zone 4

***Thuja orientalis* 'Franky Boy'**

Unique golden, thread-like foliage grows upright creating a tear drop effect on this dwarf conifer. Winter foliage turns orange-bronze, adding both color and texture to the landscape year-round.

Oriental Arborvitae • Sun-Part shade • 6x4' • Zone 5

***Thuja plicata* 'Daniellow', Golden Spire PP20267**

Year-round bright yellow foliage grows on this tightly upright conifer. Best color when grown in full sun. *Unlicensed propagation prohibited.*

Western Red Cedar • Sun-Part sun • 18x5' • Zone 5

***Thuja plicata* '4EVER', Forever Goldy PP19267**

Year-round interest is what you get with this upright conifer. Its golden color and sculptural form are stunning. Red stems and an orange tint to the foliage appear in fall and winter. *Unlicensed propagation prohibited.*

Western Red Cedar • Sun-Part shade • 20x5' • Zone 5

***Thuja plicata* 'De Rakt', Sugar and Spice PP19926**

Soft textured evergreen with fine foliage, very slender and vertical growing. Perfect for smaller gardens and container planting. *Unlicensed propagation prohibited.*

Western Red Cedar • Sun-Part shade • 8-10' in 10 years • Zone 5

PERENNIALS

Athyrium niponicum var. *pictum*

PERENNIALS

Ferns

Athyrium filix-femina

Light green feathery fronds add great color and texture to the landscape. Fronds are arrowhead-shaped, up to 1' wide and 3' long. This deciduous fern grows in thick, rounded clumps.

Lady Fern • Part shade-Shade • 3x2.5' • Zone 4

Athyrium niponicum var. pictum

Deciduous, arching, blue-green fronds with silver-gray and reddish variegation. Good in woodland gardens, mass plantings, containers, and borders. Needs good air circulation.

Japanese Painted Fern • Filtered sun-Shade • 2x1' • Zone 4

Athyrium niponicum var. pictum 'Regal Red'

A stunning addition to the shade garden, this deciduous fern has silvery green fronds with violet-red highlights. Excellent for cutting. Deer and rabbit resistant.

Japanese Painted Fern • Part shade-Shade • 1.5x2' • Zone 4

Cyrtomium fortunei

An evergreen fern with matte green fronds that are similar to holly branches. Stiff upright clumps add texture and interest to the garden.

Holly Fern • Part shade-Shade • 2-3x2' • Zone 6

Dryopteris erythrosora 'Brilliance™'

Young fronds are lustrous, displaying orange, copper, and pink colors that intensify the landscape.

Autumn Fern • Part shade-Shade • 1.5x2' • Zone 5

Dryopteris marginalis

A fantastic addition to woodland gardens, this clumping fern has deeply cut, blue-green fronds. Evergreen and cold tolerant.

Marginal Wood Fern • Part shade-Shade • 2x2' • Zone 3

Matteuccia struthiopteris

The light to medium green fronds of this beautiful and elegant fern are upright and slightly arching. Their size and texture lend a tropical air wherever they are planted. The young fiddleheads are edible.

Ostrich Fern • Part shade-Shade • 4x3' • Zone 3

Polystichum munitum

A great structural, evergreen fern growing from a dense, slowly expanding crown.

Western Sword Fern • Part shade-Shade • 4x7' • Zone 5

Polystichum setiferum 'Divisilobum'

Semi-evergreen with delicately dissected foliage. Arching fronds create a very lacy appearance.

Soft Shield Fern • Part shade-Shade • 2x2' • Zone 6

PERENNIALS

Grasses

Calamagrostis x acutiflora 'Eldorado' PP16486

This cool-season, ornamental grass is green with golden yellow centers along the leaf blades. Inflorescences develop in early summer, rising above the foliage, and are variable in height, giving this clumping grass a more informal appearance. *Unlicensed propagation prohibited.*

Feather Reed Grass • Full sun-Part shade • 4x2.5' • Zone 5

Carex albula 'Frosty Curls'

A clumping evergreen sedge with very fine frosty colored leaves. 'Frosty Curls' adds texture to the landscape. Tolerates both dry and wet sites.

Sedge • Sun-Part shade • 1.5x1.5' • Zone 6

Carex oshimensis 'Carfit01', EverColor® Everest PP20955

An evergreen, variegated sedge with green centers and bright white edges. Neat grass-like leaves rise from the crown and arch gracefully to create a stunning effect. Useful in containers, borders, or to brighten up a shady garden. *Unlicensed propagation prohibited.*

Sedge • Part sun-Shade • 18x18" • Zone 5

Calamagrostis x acutiflora 'Karl Foerster'

This is a cool season, clumping grass with a compact, erect growth habit. Magnificent, wheat-like seed heads appear in late spring and last all season long. This tall grass provides a great backdrop for lower growing plants, is useful for screening, and will not reseed. A good choice for heavy clay soils.

Feather Reed Grass • Full sun • 5x2' • Zone 5

Carex testacea

This orange New Zealand sedge has bronze green, arching leaves becoming vivid orange in fall. Foliage provides multi-season interest. Deer and rabbit resistant.

Sedge • Sun-Part shade • 2x2' • Zone 6

Festuca glauca 'Casca11', Beyond Blue™ PP23307

From spring through winter this outstanding fescue carries its rich steel blue color throughout. Growing in a mound, the fine foliage cascades neatly, and the inflorescences rise 6-8" above the foliage. Tolerates heat, humidity, and drought. *Unlicensed propagation prohibited.*

Blue Fescue • Sun-Part sun • 12x18" • Zone 4

Hakonechloa macro 'All Gold'

Shiny, pure golden leaves arch gracefully. Slow to establish. Good in shady and woodland gardens.

Japanese Forest Grass • Part shade • 14x18" • Zone 5

Hakonechloa macro 'Aureola'

Green and gold striped foliage arches gracefully. Slow to establish, but worth the wait.

Japanese Forest Grass • Part shade • 18x18" • Zone 5

Hakonechloa macra 'Beni-kaze'

Graceful ribbon-like leaves that are green in summer turn brilliant shades of red in the fall. Clumping, spreading habit. Easy to grow.

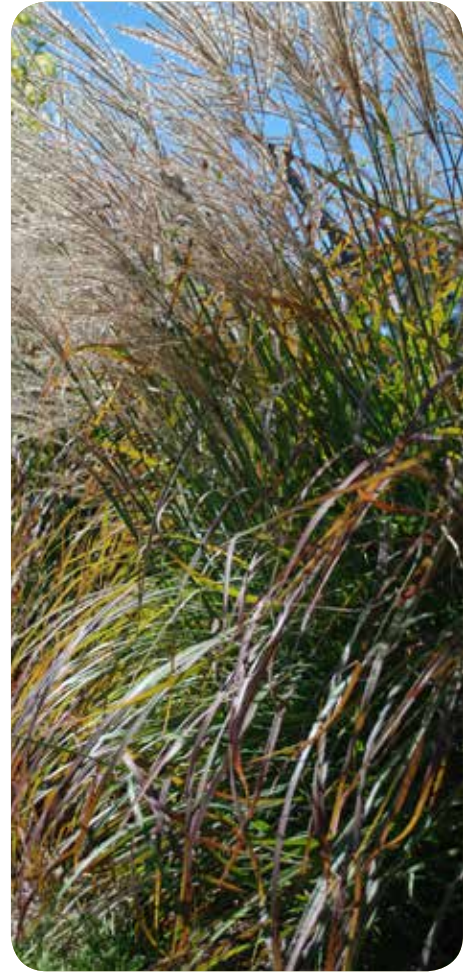

Japanese Forest Grass • Part sun-Part shade • 12-18x18-24" • Zone 5

Hakonechloa macra 'Nicolas' PP19898

This clumping grass has green foliage in spring and summer with orange and red tones in fall. *Unlicensed propagation prohibited.*

Japanese Forest Grass • Part shade • 8-16x18-24" • Zone 5

Miscanthus sinensis 'Little Miss' PP28849

A compact, clumping grass with narrow, arching foliage emerges green in spring, and develops blades tipped in crimson and purple tones. This two-tone effect intensifies as the season progresses. Red flowers rise above the foliage, producing showy buff colored seed heads late in summer, persisting through fall. *Unlicensed propagation prohibited.*

Maiden Grass • 2-3x2-3' • Sun-Part shade • Zone 4

Muhlenbergia capillaris

For late summer interest, you can't beat this ornamental grass. Flower stalks form clouds of pink plumes which hover 1' above the foliage. Tolerates heat and humidity.

Muhly Grass • Sun-Part shade • 2x2' • Zone 6

Muhlenbergia reverchonii 'Pund01s', Undaunted®

Gray-green rounded clumps of foliage are topped by 1' tall red flower spikes in fall, persisting into winter. Nice in mass plantings or as a specimen. *Unlicensed propagation prohibited.*

Ruby Muhly • Full Sun • 18x24" • Zone 5

Ophiopogon planiscapus 'Nigrescens'

This semi-evergreen has purple-black grass-like leaves which form a slowly spreading clump. Small bell-shaped light pink flowers produce glossy dark purple berries.

Black Mondo Grass • Sun-Part shade • 1x1' • Zone 6

Panicum virgatum 'Red Sunset' PPAF

An attractive ornamental grass for the landscape. Blue-green leaves and stems emerge in spring quickly maturing to wine red by early summer. Beginning in late summer, clumps are topped with airy, rosy red panicles. *Unlicensed propagation prohibited.*

Switch Grass • Sun-Part sun • 3-4x3-4' • Zone 4

Pennisetum alopecuroides 'Burgundy Bunny' PP21917

A dwarf fountain grass forming an upright clump of narrow green leaves. Red highlights begin in late spring and by fall the foliage is completely ablaze. Small tufts of cream colored flower plumes appear a few inches above the foliage in late summer. *Unlicensed propagation prohibited.*

Fountain Grass • Sun-Part shade • 1x1' • Zone 6

PERENNIALS

Grasses – Hosta – Yucca

Pennisetum alopecuroides 'Piglet' PP19074

A spreading clump of narrow green leaves, fall color is red-brown. Silvery to pinkish white flower spikes arch gracefully upward above the foliage. Grows well in moist conditions, but tolerates drought once established. *Unlicensed propagation prohibited.*

Fountain Grass • Sun-Part sun • 18x24" • Zone 5

Hosta 'Blue Angel'

Large, textured blue leaves with pale lavender to white flower spikes.

Plantain Lily • Part shade-Shade • 36x48" • Zone 3

Hosta 'Blue Mouse Ears'

Small, rounded leaves give this hardy, clump-forming Hosta its name. Short stalks of lavender flowers stand above blue-green to gray-green foliage.

Plantain Lily • Part shade-Shade • 7 x 12" • Zone 3

Hosta 'Fire and Ice'

Twisted leaves and variegation give this herbaceous perennial an interesting wavy look. Foliage has white centers and irregular dark green margins. Pale lavender flowers bloom in summer.

Plantain Lily • Part shade-Shade • 16 x 32" • Zone 3

Hosta 'Great Expectations'

Large leaves with gold centers turn creamy white with blue-green margins.

Plantain Lily • Part shade-Shade • 24x36" • Zone 3

Hosta 'Guacamole'

This large leaved Hosta also has large, fragrant, white flowers. Foliage is rich green with chartreuse centers.

Plantain Lily • Part shade-Shade • 18x36" • Zone 3

Hosta 'Patriot'

Dark green leaves with wide white edges. Lavender flowers. Blooms July to August.

Plantain Lily • Part shade-Shade • 24x36" • Zone 3

Hosta 'Sum and Substance'

Huge, glossy, textured leaves are chartreuse to gold bearing pale lavender flowers.

Plantain Lily • Sun-Part shade • 30x60" • Zone 3

Hosta 'Stained Glass'

Large textured leaves are bright gold with irregular dark green margins. Heavy veins create a "stained glass" look. Pale lavender flowers are fragrant, blooming in late summer.

Plantain Lily • Part shade-Shade • 15x32" • Zone 3

Hosta tardiana 'June'

A striking Hosta, with foliage that has bold golden centers, surrounded by a wide margin of blue-green. Pale lavender summer blossoms round out the appeal.

Plantain Lily • Part shade-Shade • 12x30" • Zone 3

Yucca filamentosa 'Golden Sword'

Sword-like leaves have green margins and golden yellow centers. Spikes of white bell-shaped flowers rise 2 feet above the foliage.

Yucca • Full sun • 4x5' • Zone 4

Yucca rigida 'Blue Sentry'

As it ages, this yucca forms a trunk. Striking blue needles eventually become a powder blue in color. At maturity, a spectacular creamy white flowering stalk rises above the foliage. Drought resistant once established, it benefits from occasional watering during summer.

Blue Yucca • Sun • 10x5' • Zone 5

Terms & Conditions

TERMS AND CONDITIONS

Orders must be prepaid, unless credit is previously approved. New accounts must complete a credit application and furnish 4 trade references and bank information. All credit applications will be considered. Please allow 30 days for processing. Approved credit accounts are due 30 days from date of shipment. All orders are subject to availability of product at time of shipment. Overdue accounts will be charged interest at the rate of 1.5% monthly on the unpaid balance. Accounts not meeting established terms will revert to prepayment status, and may result in a loss of discount. Accounts inactive for 4 years or greater will revert to prepayment, and will need to fill out a new credit application 30 days prior to shipping. Payment by credit card is accepted, and nominal service fees will apply.

PRICING

Prices are subject to change without notice. Please contact us for current pricing. Freight costs are not included in pricing.

PHYTOSANITARY CERTIFICATES

Orders shipped to Canada or within a state that requires a phytosanitary certificate will be charged a fee to process phytosanitary documents.

MINIMUM ORDER

Orders shipped via common carrier must meet our net dollar minimum of \$3500 from February-July, and \$2750 from August-January. For efficiency, a **minimum quantity of 5** applies to all #1, #2, #3, and #5 containers, for both will call and delivery.

SHIPPING

At your request, we will arrange shipping via common carrier. You will be charged freight COD, unless you have previously established credit with the carrier. If you are arranging a carrier, please allow us at least three days' notice prior to shipping to prepare your order. We do not assume responsibility for the product once loaded. Freight claims must be submitted to the carrier directly.

ADJUSTMENTS AND CANCELLATIONS

Please review your final acknowledgement and confirmation promptly and notify us of any changes. **Cancellations will not be accepted after January**

1st for field-grown material. Any material cancelled after **March 1st** will be subject to a 20% restocking fee. We reserve the right to substitute one size larger or smaller on all material, unless prior instructions of "no substitutions" are given. We reserve the right to cancel product due to weather damage, error in availability, insect or disease injury, acts of nature or government, and all other causes beyond the seller's control. In the event that the plant material ordered by the Buyer is not available to the Seller for any reason, the Seller shall provide the Buyer with the option of substituting another product upon terms and conditions agreeable to both parties. Plant unavailability shall not be deemed a breach of this Agreement.

CLAIMS

All claims must be noted on the Bill of Lading. **Claims must be made in writing within 5 days of receipt of shipment and include pictures of the damaged material.** Any material subject to claim must be held for inspection and disposition of the seller. Claims made regarding damage in transit must be made directly to the carrier. We will be glad to assist if requested. We are not responsible for any sum greater than the purchase price of the stock.

CUSTOM LABELS

We can add your company's retail prices, SKUs, and/or our UPCs to our tags for each plant, or you can send us your own tags. If your pricing/SKU codes or tags are received by **January 15th**, the charge per tag will be 25¢ per tag. Any pricing/SKU codes or tags received after January 15th will be charged at 35¢ per tag.

CONDITIONS OF SALE

The Seller makes no warranty, expressed or implied, extending beyond the description herein, including merchantability. Liability, in all cases will not exceed purchase price of the subject plants.

PLANT PATENT and/or TRADEMARK

The price of certain plants purchased by the Buyer may include a plant patent and/or trademark royalty. In exchange for those royalty payments, the Seller grants to the Buyer a limited, non-exclusive license to grow and sell the plants. This license does not include the right to asexually propagate the plants in any manner.
