

# EV COSMOS

ISO 9001: 2005 CERTIFIED

**MOVE GREEN**  
**MOVE ELECTRIC**

## EV INDUSTRY

The Indian EV market is anticipated to register a CAGR of about 20% during the forecast period (2020-2025). Central Govt. "FAME" (Faster Adoption and Manufacturing of Hybrid & Electric Vehicles) has a proposed allocation of 10,000 crores and ambitious target of 30% EV by 2030. Various tax incentives are also rolled out by the central govt.

Benefits offered by EVs not limiting to the fossil fuel dependence urban air pollution and carbon emissions has a major role to play in coming times. These circumstances position India to pursue an EV policy which systematically ensures that India's EV program keeps pace with the global scale large economies seem to take significant steps towards electrification of vehicles.

## EV COSMOS

A young enterprise established in the year 2015 with cumulative experience of the promoters of 75 years and based in Bhopal, MP. We have been working on Renewable, Sustainable and Clean technology domain and have adopted the Electric Vehicle Charging domain under the brand to further promote the EV Charging Technology and E-Mobility revolution in India.

We are one of the best Electric Vehicle Charging Infrastructure Solution providers across India with wide range of EV Chargers which are Indian standard and charging protocol compliant like the **Bharat AC-001** and **Bharat DC-001**.

## VISION

To create an electric mobility revolution across India with a specific focus on tier I, tier II, tier III cities and urban agglomerations of India, where approx. 40% of Indian population live. Work towards developing mobility options which are shared, connected and electric. Also reduce the environmental impact by means of clean and sustainable future technologies.

## WHAT WE DO

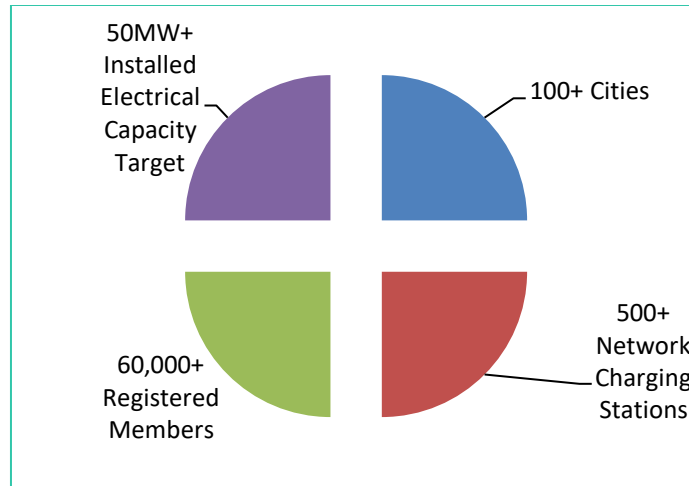

EV Industry in India is at a nascent stage hence the need to adopt the right technology is critical for all stakeholders. We facilitate design, selection, and implementation of EV Technology as per the need. We also extend our services in designing the complete EV ecosystem which involves the design & implementation of electrical side renewable energy and storage solution.

## WHAT WE OFFER

State of the art facility in prominent industrial area of central India. We provide complete EV Charging Solutions for Residences, Apartments, Commercial Properties, Hotels and Entertainment Parks, Corporate Houses, Healthcare, Retailers, Smart Cities, and Highways etc. We offer solutions through:

EV CHARGING INFRASTRUCTURE	IT SOLUTIONS	ELECTRIC VEHICLE SUPPLY EQUIPMENT (EVSE)	E-MOBILITY
<ul style="list-style-type: none"><li>• Feasibility Study</li><li>• EV Selection</li><li>• IOT Enabled Charging Technology</li><li>• Electrical Design</li><li>• Renewable Energy(Solar Integration)</li><li>• Turnkey Solutions</li><li>• E-waste Management</li><li>• AMC and O&amp;M</li></ul>	<ul style="list-style-type: none"><li>• Network Solutions</li><li>• Central Management System (CMS)</li><li>• Mobile Applications</li></ul>	<ul style="list-style-type: none"><li>• DC Chargers from 15KW to 150KW with embedded IT Solutions</li><li>• AC Chargers</li><li>• Integrated Energy Storage System (ESS)</li><li>• On-Board Chargers(OBC)</li><li>• DC-DC Convertors</li><li>• DC Contactors</li></ul>	<ul style="list-style-type: none"><li>• Charge Point Operators (CPO)</li><li>• 2W &amp; 3W Fleet Management</li><li>• Battery Swapping</li><li>• Retro Fitting</li></ul>

## EV COSMOS ROAD MAP – 2025

### Strategic Alliance - chargeNET

EV Cosmos has joined hands with ChargeNET a group company of UK Based CodeGen group with manufacturing facility at Sri Lanka. ChargeNET is the first and largest EV Charging network provider in Sri Lanka with existing 80+ charging stations across Sri Lanka and bring along the expertise and experience of over 1000 members and **“United Nations World Summit Award Winner”**.

### Collaborative Experience

EV Cosmos along with ChargeNET brings huge experience in the EV domain with its own R&D and manufacturing facility for both hardware and software. We have in house capabilities to design scale and compete with best in the market.

Continuous research and market development has lead to the cutting edge technologies providing holistic solution for the EV Charging.

### Our Network

National footprints with regional offices in major cities of the country to cater to pan India operations and sales network:
