**BASF**

**Precautionary Statements**  
**Hazards to Humans (and Domestic Animals)**

Causes substantial but temporary eye injury. Do not get into eyes or on clothing. Harmful if swallowed.

**Re-entry statement**

Do not allow people or pets to come into contact with treated areas until spray has dried.

**Personal Protective Equipment:**  
Some materials that are chemically resistant to this product are listed below. If you want more options, follow the instructions for category G on an EPA chemical resistance category selection chart.

**Applicators and other handlers must wear:**

- Coveralls over short-sleeved shirt and short pants
- Chemical-resistant gloves, such as barrier laminate, or viton ≥ 14 mils
- Chemical-resistant footwear plus socks
- Protective eyewear
- Chemical-resistant apron when cleaning equipment, mixing, and loading

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not re-use them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**User Safety Recommendations:**  
**Users should:**

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**Environmental Hazards**

For terrestrial uses, do not apply directly to water, to areas where surface water is present, or to intertidal areas below the high water mark. Do not contaminate water when disposing of equipment washwaters.

**Endangered Species Concerns**

The use of any pesticide in a manner that may kill or otherwise harm an endangered or threatened species or adversely modify their habitat is a violation of federal law.

**Directions For Use**

It is a violation of federal law to use this product in a manner inconsistent with this labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

**READ ENTIRE LABEL FOR DIRECTIONS FOR USE AND PRECAUTIONARY STATEMENTS.**

**Poast® herbicide** is a selective systemic grass killer to eliminate existing weedy grasses growing in and around plant beds, landscapes, and individual shrubs and trees. (See appendix for listing.) It can be used through a hose-end sprayer according to the directions of the sprayers being used or through a tank-type sprayer.

Poast can also be used around listed fruit and vegetable areas wherever listed weedy grasses occur. Use only tank type sprayers.

**Weedy Grasses Controlled:**

Poast kills most annual and hard-to-kill perennial grasses up to 1 foot high including the examples listed below in one (or two) application(s). Younger, actively growing seedling weeds are more easily killed than older, mature, well-established grassy weeds which may require a repeat application for control. Adding oil concentrate may help control of grassy weeds\*.

Barnyardgrass	Junglerice
Bermudagrass	Lovegrass
Broadleaf	Orchardgrass,
Signalgrass	Seedling
Crabgrass	Quackgrass
, Large	Tall Fescue
, Smooth	Seedling
Fall Panicum	Texas Panicum
Foxtails, Giant	Shattercane/
, Green	Wildcane
, Yellow	Wild Proso Millet
Goosegrass	Wirestem Muhly
Johnsongrass	Witchgrass
, Seedling	Woolly cupgrass
, Rhizome	

**Note:** This product does not control sedges (including nutsedge or nutgrass) annual bluegrass, or broadleaf weeds. Red fescue, chewings fescue, hard fescue, and dichondra turfs are also tolerant of Poast.

**When to apply**

Apply any time grassy weeds are actively growing not exceeding the minimum of days from application to harvest when used on vegetables and fruits. Warm sunny weather will accelerate systemic movement from leaves and stems down to the roots to give complete kill. Do not mow or cut off tops of weeds before spraying. Do not apply if rainfall is expected within one hour following application. Growth of treated grasses stops soon after application. They turn yellow and die within one to three weeks depending on the grass species, stage of growth and weather conditions. Cool weather, drought and heat stress slows activity.

**Dilution Table**

**Amount of Poast (concentrate) and Oil concentrate to use**

Water to be Used (gallons)	Amount of Poast		Amount of Oil Concentrate		Coverage in Square Feet
	Fluid Ounces	Tablespoons	Fluid Ounces	Tablespoons	
1	1	2	1	1	1,800
3	3	6	3	3	5,500
5	5	10	5	5	9,100
8	8	16	8	8	14,600

One gallon of spray will treat 1,800 square feet of area.

\* To prevent leaf burn of desirable plants, do not use oil concentrate when comfort index (temperature °F + humidity) exceeds 150.

**How to apply****With hose-end sprayers:**

**A. No water dilution/premixing needed.** Determine how much area is to be treated in square feet. Pour 1 fluid ounce of **Poast** and 1 fluid ounce of oil concentrate in the hose-end sprayer bottle for each 1,800 square feet to be treated. Set the sprayer dial to apply as close to 1 fluid ounce per gallon as possible. After application, wash the sprayer with a dilute soap solution and rinse according to the sprayer instructions.

**B. Water dilution/premixing needed.**

Some hose-end applicators recommend that liquid products be premixed with water before pouring into the sprayer bottle. Read the hose-end sprayer instructions for making treatments at 1 fluid ounce per 1,800 square feet. Clean the sprayer after use according to the sprayer instructions.

**With tank sprayers:**

Mix 1 fluid ounce of **Poast** plus 1 fluid ounce of oil concentrate per 1 gallon of water and spray to just wet the unwanted weedy grasses. One gallon of spray will treat 1800 square feet of area. Wash sprayer by flushing soapy water and then clean water through the sprayer.

**Important:** For spot treating grassy weeds near lawns and around any sensitive plants, a tank type sprayer is recommended. Spray carefully to avoid spray or drift contact with desirable plants. If drift occurs, wash off foliage immediately with water.

**For use on flowers, bedding plants, evergreens, shrubs, trees and ornamental ground-covers**

**Poast** may be applied "over-the-top" of desirable plants infested by weedy grasses or as a directed spray to weedy grasses when label directions are followed. Do not exceed dosage rate per gallon of spray. See **Appendix** for tolerant plant listing.

Most ornamental species tested have been found tolerant of **Poast**; however, use with caution around the following plants as they may be damaged if foliage is contacted by the spray: Azaleas (var. snow), Japanese Privet, Potentilla, Snow-in-Summer, Red Oak and White Oak and ornamental grasses.

**Poast** may also be used on the following nonbearing food plants. Do not apply within 1 year of harvest.

Almonds	Nectarines
Apricots	Peaches
Asparagus	Plums
Avocados	Pomegranates
Blackberries	Prunes
Cherries	Walnuts
Figs	

**For use on fruit and vegetables areas (use only with tank type sprayers).**

**Poast** may be used on the fruits and vegetables listed in the **Fruit and Vegetable Table**. Do not apply on or around any fruit and vegetable not listed on this label, especially sweet corn. Applications on and around tolerant vegetables and fruit should be applied with only a tank-type sprayer. A second application may be made to all listed vegetables and fruits except peanut and strawberry.

The quantities presented in the **Dilution Table** do not exceed the registered rates for the fruits and vegetables listed. Do not exceed the quantities presented.

**Storage and Disposal**

**Storage:** Keep pesticide in original container. Do not put concentrate or dilute spray into food, feed or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferably in a locked storage area. Do not store diluted spray.

**Disposal:** Securely wrap original container in several layers of newspaper and discard in trash.

**Container:** Do not re-use empty bottle.

**Notice:** Buyer assumes all liability, including personal injury and property damage, which may result from the use of this product in a manner inconsistent with labeling directions. If these terms are not acceptable, return at once unopened.
